Why Invest in Index Funds?

Investing in index funds might not seem all that exciting, but that's the point. It gives you broad exposure to a market/asset that will help ensure your wealth grows over time.

Reduces your risk of losing money

Allows you to invest in a variety of companies

Costs less than mutual funds or individual stocks

You won't "beat the market" with index funds, but you have a much better chance of making a good return over time

Key point: Investing in index funds gives you the benefits of investment returns of the stock or other market without taking on the individual company risk and having to pay trading commissions related to individual stocks.
