Examination JAMA Care at the Close of Life is based on a widely successful series of articles appearing over the course of the last ten years in JAMA the world's most widely read medical journal. The series is directed by Stephen McPhee, a leading authority of end of life care and the chief editor of our market leading Current Medical Diagnosis and Treatment text. The articles in the series cover fundamental topics and challenges in caring for patients who have been given a terminal diagnosis. Featuring a strong focus on evidence based medicine and organized by clinical cases, the articles are widely read by faculty, medical students, and clinicians who frankly have not been given a solid educational experience on this very important medical issue. The book will be physically modeled after The Rational Clinical Examination in a full color format that highlights the clinical cases. It will be well suited for use as an required or recommended textbook for medical PA and NO students and as a clinical reference text for trainees and practicing physicians and nurses.

Key Selling Features: Based on highly regarded content from the world's most widely read medical journal. All content is completely updated and extensive new never before published content has been added. Case based and evidence based so it's a perfect fit for the way medical students and residents like to learn. Focuses on practical real world issues for primary care physicians and avoids esoteric issues of interest only to specialists in palliative care. Full color format modeled after the highly regarded Rational Clinical Examination. Includes multimedia materials available on line: Power Point slides for teaching and video interviews with patients in end of life care so that faculty and students get supplemental resources for learning the art and science of care at the end of life. Evidence based guidance from the world's leading medical journal on a critical topic that has been neglected in medical education and training until recently. Author Profile: JAMA is the world's most widely read medical journal and has a reputation for excellence in evidence based medicine. Stephen McPhee has high visibility on account of his editorship of CMDT and for his driving role in enhancing end of life care in medical education and training programs. He is Professor of Medicine UCSF School of Medicine San Francisco CA.

Medical Management of Vulnerable and Underserved Patients: Principles, Practice, Populations, Second Edition Talmadge E. King, Margaret B. Wheeler, Alicia Fernandez, Dean Schillinger, Andrew B. Bindman, Kevin Grumbach, Teresa J. Villela, 2016-06-17. The leading reference and text on the increasingly relevant and important topic of caring for underserved patients and those with highly unique health requirements. A Doody's Core Title for 2019. The timely publication of Medical Management of Vulnerable and Underserved Patients: Principles, Practice, and Populations, Second Edition is designed to clarify current issues and instruct you in best practices and compliance with legislation such as the Affordable Care Act when caring for patients living with chronic diseases in poor and minority populations. How do these laws affect you, your practice, and patient care? Medical Management of Vulnerable and Underserved Patients is ideally suited for clinical and educational programs and policy oriented institutions concerned with addressing health disparities and caring for the underserved and vulnerable patient. Comprehensive in scope and authored by many of the leading names in the field, the book takes complex concepts and issues

and helps you understand them resulting in a roadmap to guide real world applications and compliance with the terms of the law Each chapter integrates key concepts core competencies and common pitfalls and concludes with useful lists of web resources and stimulating discussion questions From the reviews of the First Edition This book is an ambitious and important contribution to the care of our most wounded patients For those of us who regularly care for vulnerable patients it provides an excellent resource and supportive guide However it should also become part of the standard library for all medical students and practicing physicians All physicians have much to learn from the practical evidence based approaches to the societal issues we all face in practice Ultimately this is a book that could help all clinicians take better care of all patients especially those who may need extra help and support as they navigate our complex health care system New England Journal of Medicine The Second Edition features Fully revised to reflect passage and impact of the Affordable Care Act on care of underserved patients Expanded with major new chapters from Health Quality to Rural Healthcare and additional content relevant to nursing Focused on evidence based practice with a patient centered approach Full color format Boxed main points and Practical Pearls such as how to write a disability letter PowerPoint slides and question sets exercises and cases to aid instruction
