

# HOW TO WRITE A BLOG POST (FOR BEGINNERS)

1

## FIND A SUBJECT FOR YOUR READERS

Your readers are your blog's life blood, so you need to choose something they are really interested in and provides sufficient value.

2

## FIND A KEYWORD FOR THE HEADLINE

There are two types of headline, which ideally should be based around a keyword, but these should be written for the readers in mind.

3

## FIND A FORMAT TO FIT YOUR KEYWORD

Your keyword will also determine your post's format, and how it will be structured, to make the subject easier to read and understand.

4

## WRITE CONTENT FOR YOUR READERS

Draft your post only for your readers, as they are the most important, and you want to keep them reading and maybe comment.

5

## FIND IMAGES FOR YOUR CONTENT

Images can say 1000 words, so are great for further explanation, separating large amounts of text and providing engagement.

6

## OPTIMISE POST WITH THE KEYWORD

Once your post is written, then carefully add you keyword for the search engines but so it doesn't destroy it for your readers.

7

## EDIT POST FOR YOUR READERS

It is important to read your post and edit it for spelling, grammar and repetition and check whether there is enough value.

8

## PROMOTE POST FOR MORE READERS

Publish your post at the right time, send it to your newsletter email list and promote it on social media to get a bigger audience.

# Expert Blog Post Ideas Guide For Beginners
