It argues that as specific Islamic approaches to a wide range of economic activities are being formulated and implemented, there is indeed a particular Islamic approach to entrepreneurship. Examining the relationship between Islamic values and entrepreneurial activity, the book considers whether such values can be more effectively used in order to raise the profile of Islamic entrepreneurship and also to promote alternatives to development in the contemporary business environment. The book analyses the nature of entrepreneurship and the special qualities of Islamic entrepreneurship and discusses how the Islamic approach to entrepreneurship can be encouraged and developed further still *Studies in Islamic Social Sciences* Masudul Alam Choudhury, 1998-03-15 This book is a project toward the continuing theme of the Islamic worldview of economy, society, institution, interactions in national and international forums, wherein individual and group preferences are created and sustained by the regeneration of knowledge into higher levels of realising truth.
