other political discoveries have been made repeatedly or rather an infinite number of times in the lapse of ages It is our duty then while we avail ourselves adequately of the discoveries of the past to endeavour to fill up the deficiencies that remain Politics Bk IV chap 10 About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

*Conceptualizing Politics* Furio Cerutti, 2017-04-21 Politics is hugely complex Some try to reduce its complexity by examining it through an ideological worldview a one size fits all prescriptive formula or a quantitative examination of as many facts as possible Yet politics cannot be adequately handled as if it were made of cells and particles ideological views are oversimplifying and sometimes dangerous Politics is not simply a moral matter nor political philosophy a subdivision of moral philosophy This book is devised as a basic conceptual lexicon for all those who want to understand what politics is how it works and how it changes or fails to change Key concepts such as power conflict legitimacy and order are clearly defined and their interplay in the state interstate and global level explored Principles such as liberty equality justice and solidarity are discussed in the context of the political choices confronting us This compact and systematic introduction to the categories needed to grasp the fundamentals of politics will appeal to readers who want to gain a firmer grasp on the workings of politics as well as to scholars and students of philosophy political science and history
