- A DSS is made up of a **model** (or models), a **source of data**, and a **user interface**.
- When a model is implemented in **Excel**, it is possible to use **Visual Basic for Applications (VBA)** to make the system more efficient by automating interactive tasks that users would otherwise have to repeat routinely.
- VBA can also make the system more powerful by extending the functionality of a spreadsheet model and by customizing its use.

**Developing Spreadsheet-based Decision Support Systems** Michelle M. H. Şeref, Ravindra K. Ahuja, Wayne L. Winston, 2007 A decision support system DSS is an intelligent information system that uses data models it processes or analyzes it using problem specific methodologies and assists the user in the decision making process through a graphical user interface GUI Developing Spreadsheet Based Decision Support Systems is a comprehensive book that describes how to build decision support systems using the Excel spreadsheet framework and the VBA programming language This book illustrates complete decision support development applications through several case studies arising in operations research industrial engineering management and business administration Developing Spreadsheet-based Decision Support Systems ,2011

**Principles of Designing and Developing Spreadsheet-based Decision Support Systems** ,2004 ABSTRACT A decision support system DSS is a model based or knowledge based system intended to support a managerial decision making user A spreadsheet based DSS uses spreadsheets to organize data and perform some spreadsheet functions It uses a basic programming language to design user interface and implement model algorithms and calculations A DSS should also oregistered trademarker the user some options to resolve his problem for a comparative analysis which may enhance the decision making process This thesis proposes design principles and a development process for building a spreadsheet based decision support system *Handbook on Decision Support Systems 1* Frada Burstein, Clyde W. Holsapple, 2008-01-22 Decision support systems have experienced a marked increase in attention and importance over the past 25 years The aim of this book is to survey the decision support system DSS field covering both developed territory and emergent frontiers It will give the reader a clear understanding of fundamental DSS concepts methods technologies trends and issues It will serve as a basic reference work for DSS research practice and instruction To achieve these goals the book has been designed according to a ten part structure divided in two volumes with chapters authored by well known well versed scholars and practitioners from the DSS community *Decision Support Systems* Daniel Power, 2004-12 For MIS specialists and nonspecialists alike a comprehensive readable understandable guide to the concepts and applications of decision support systems **Spatial Decision Support Systems** Ramanathan Sugumaran, John Degroote, 2010-11-15 This book provides a comprehensive examination of the various aspects of SDSS evolution components architecture and implementation Integrating research from a variety of disciplines it supplies a complete overview of SDSS technologies and their application This groundbreaking reference provides thorough coverage of the roots of SDSS It explains the core principles of SDSS how to use them in various decision making contexts and how to design and develop them using readily available enabling technologies and commercial tools *Efficient Decision Support Systems* Chiang Jao, 2011-09-06 This series is directed to diverse managerial professionals who are leading the transformation of individual domains by using expert information and domain knowledge to drive decision support systems DSSs The series offers a broad range of subjects

addressed in specific areas such as health care business management banking agriculture environmental improvement natural resource and spatial management aviation administration and hybrid applications of information technology aimed to interdisciplinary issues This book series is composed of three volumes Volume 1 consists of general concepts and methodology of DSSs Volume 2 consists of applications of DSSs in the biomedical domain Volume 3 consists of hybrid applications of DSSs in multidisciplinary domains The book is shaped decision support strategies in the new infrastructure that assists the readers in full use of the creative technology to manipulate input data and to transform information into useful decisions for decision makers

**Research Anthology on Decision Support Systems and Decision Management in Healthcare, Business, and Engineering** Management Association, Information Resources,2021-05-28 Decision support systems DSS are widely touted for their effectiveness in aiding decision making particularly across a wide and diverse range of industries including healthcare business and engineering applications The concepts principles and theories of enhanced decision making are essential points of research as well as the exact methods tools and technologies being implemented in these industries From both a standpoint of DSS interfaces namely the design and development of these technologies along with the implementations including experiences and utilization of these tools one can get a better sense of how exactly DSS has changed the face of decision making and management in multi industry applications Furthermore the evaluation of the impact of these technologies is essential in moving forward in the future The Research Anthology on Decision Support Systems and Decision Management in Healthcare Business and Engineering explores how decision support systems have been developed and implemented across diverse industries through perspectives on the technology the utilizations of these tools and from a decision management standpoint The chapters will cover not only the interfaces implementations and functionality of these tools but also the overall impacts they have had on the specific industries mentioned This book also evaluates the effectiveness along with benefits and challenges of using DSS as well as the outlook for the future This book is ideal for decision makers IT consultants and specialists software developers design professionals academicians policymakers researchers professionals and students interested in how DSS is being used in different industries Decision Support Systems C. **Computer-Aided Decision Analysis** Stuart S. Nagel, 1993-06-30 The essence of decision aiding software is that it consists of various forms of microcomputer programming designed to enable users to process a set of 1 goals to be achieved 2 alternatives available for achieving them and 3 relations between goals and alternatives in order to choose the best

alternative combination allocation or predictive decision rule Benefits from using decision aiding software include 1 being more explicit about goals to be achieved alternatives available for achieving them and relations between goals and alternatives 2 being stimulated to think of more goals alternatives and relations than one would otherwise be likely to do 3 being prepared to handle multiple goals alternatives and relations without getting confused and without feeling the need to resort to a single composite goal or a single go no go alternative 4 being encouraged to experiment with changes in the inputs into one's thinking to see how one's conclusions are affected and 5 being better able to achieve or exceed one's goals when choosing among alternatives or allocating scarce resources There are five parts to the book covering 1 a broad overview of decision aiding packages including criteria for evaluating them 2 approaches that are based on management science and operations research including linear programming and decision trees 3 spreadsheet based software generally with goals on the columns alternatives on the rows relations in the cells overall totals for each alternative at the far right and a capability for indicating how the totals would be altered as a result of changes in the inputs 4 expert systems software including rule based and knowledge based expert systems and 5 general applications of decision aiding software and a discussion of the increasing utilization of such software
