The Story of British Propaganda Film Scott Anthony,2024-09-05 All art is propaganda wrote George Orwell but not all propaganda is art Moving from World War I to the War on Terror and beyond The Story of British Propaganda Film shows how the emergence of film as a global media phenomenon reshaped practices of propaganda while new practices of propaganda in turn reshaped the use of the moving image It explores classic examples of cinematic propaganda such as The Battle of the Somme 1916 Listen to Britain 1942 and Animal Farm 1954 alongside little known newsreels telemagazines and digital media initiatives in the process challenging our understanding of propaganda itself and its many diverse manifestations Richly illustrated with unique material from the BFI National Archive the book shows how central propaganda is to the development of British film and how it has filtered our understanding of modern British history from narratives of decolonisation to the celebration of pop culture and the meanings of the postwar consensus In a contemporary moment so preoccupied with misinformation malinformation and disinformation Scott Anthony explains why the response to the ubiquity of the propaganda film has often turned out to be the production of ever more propaganda
