

Discussion Questions for Bud, Not Buddy

Courtesy of:

Living in Foster Homes

Why do you think life in foster homes was especially difficult during the 1930s?

How did you picture Bud's everyday life in "the home"? In the Amos's home?

Independence

Bud chose to leave the foster system and set out on his own. Why do you think Bud made this choice, while other kids chose to stay?

Bud's independent spirit helped him survive a difficult life. How might an independent spirit be helpful to a young person in different situations?

A Real Family

What makes a real family?

Are there any things we can do to help kids who are still in a difficult family situation?

The Great Depression

What did you learn in history class about the Great Depression that might apply to this story?

How did the Great Depression affect the everyday lives of parents and kids in America?

Poverty

What does it mean to live in poverty?

Poverty may cause people to take desperate measures that they wouldn't ordinarily try (such as "riding the rails" west in hopes of finding work). Do you think this still happens today? Explain.

Jazz Music

The 1920's was a time for fun. People enjoyed going out, dancing, and listening to jazz music. The 1930's was completely different, but people still enjoyed listening to jazz. Why do you think jazz was popular during this time?

In the story, jazz music provided a good living for Herman E. Calloway's band. What do you think the life of a professional musician would be like?

Characters

Each of Bud's young friends is an interesting character, even though they are not main characters in the story. How would you describe each of these characters?

Jerry (Bud's friend at "the home")

Bug's (Jerry's friend "on the lam")

Deza (the girl Bud met at the Hooverville)

Herman E. Calloway, the band leader who turned out to be Bud's grandfather, is a character who seems to change throughout the story, or at least what we know about him changes. How would you describe Mr. Calloway during most of the story? How would you describe him at the end?

Learning to Predict and Predicting to Learn Thomas DeVere Wolsey, Douglas Fisher, 2009 Featuring practical instructional routines that are clearly linked to cognitive strategies students need to make sense of text this book combines a rationale written from the perspective of current research that supports the use of the strategy or instructional routine with clear step by step directions and multiple examples from the classroom experiences of teachers across the United States These experiences appear as boxed features that are easily identifiable by the reader The text is written in such a way that readers may start on page one and work

through the end of the book or use the book as a reference for their own practice or as an inservice tool Each cognitive strategy is linked via convenient matrices to the instructional routines that promote precision thinking on the part of students Features Differentiation between cognitive strategies for students and instructional routines teachers might use Provides teachers and preservice teachers with a means to think about the tools they use to promote cognitive proficiency on the part of students Often strategies are used a catch all term that does not clarify the difference between what teachers do and how students incorporate learn from those routines Boxed features Real teachers explain how they have used the tools discussed in the book Provides teachers with examples to which they may be able to relate Instead of an isolated example the voices of classroom teachers will explain how they have implemented instructional routines or promoted cognitive strategies for their students Sound rationale coupled with step by step procedures Teachers often like to know what works but many texts ignore their need and desire to know why a strategy or routine works This text links rationale with tools so that readers will be able to explain why they are using a routine or assisting students to use cognitive tools to understand how they might think more precisely about the books they read Theme Prediction Prediction is a popular request teachers make of their students but often teachers lack sufficient experience or rationale to know how students might use prediction to increase precision in thinking about books and other texts they read Approach Combination of both theoretical and research with useful tools students and teachers can implement tomorrow Many books take either a theoretical approach with little classroom application provided or a practical approach that does not help teachers understand why a given tool is useful and under what circumstances This book combines the best of both approaches to help teacher readers understand why a strategy or routine is worth the instructional time that might be devoted to it

Learning Through Academic Choice Paula Denton,2005 Giving children choices leads to deep engagement in learning This comprehensive guidebook shows you step by step how to give children structured meaningful choices about what and how they learn Within any curriculum the powerful teaching strategy of Academic Choice will help you create a classroom culture in which children see themselves and each other as capable learners *Classroom Literacy Assessment* Jeanne R.
