What Do I Measure?

- **Measurement** is the process of describing some property of a phenomenon of interest, usually by assigning numbers in a reliable and valid way.
- The numbers convey information about the property being measured.
- When numbers are used, the researcher must have a rule for assigning a number to an observation in a way that provides an accurate description.

Zenger and Joseph R Folkman took when they wrote their now classic leadership book *The Extraordinary Leader* and it is a fact they reinforce in this new completely updated edition of their bestseller. When it was first published *The Extraordinary Leader* immediately attracted a wide audience of aspiring leaders drawn to its unique feature: the extensive use of scientific studies and hard data which served to demystify the concept of leadership and get readers thinking about the subject in a pragmatic way. Now Zenger and Folkman revisit the subject to address leaders' most pressing concerns today. The result is an up-to-date essential leadership guide for the twenty-first century that includes late-breaking research on the psychology of leadership, new information on leading in a global environment, a breakthrough case study on measuring improved leadership behavior, and studies revealing the importance of follow-through. *The Extraordinary Leader* is a remarkable combination of expert insight and extensive research. The authors analyzed more than 200,000 assessments describing 20,000 managers by far the most expansive research ever conducted for a leadership book. Zenger and Folkman have created the leadership book of the ages. *The Extraordinary Leader* explains how to build leadership skills that will take you and your organization to unimaginable success.
