*Castles Made of Sand* Andre Gerolymatos, 2010-11-23 Extensively researched with detailed source notes and an expansive bibliography and cogently argued Gerolymatos's study of diplomacy by espionage is timely and instructive Publishers Weekly With roots in imperialism and the nineteenth century mindset of the Great Game Western nations have waged an intricate spy game this past century to establish control over the Middle East secure access to key resources and regions of commerce and prevent the spread of Soviet communism into the region From the Suez Canal to the former Ottoman Empire British and American intelligence communities have conspired to topple regimes and initiate Muslim leaders as pawns in a geopolitical chess game fought against Marxist expansion Yet while the Iron Curtain was doomed to fall near the end of the twentieth century this pattern of tunnel vision has created a different monster The resulting resurgence of Muslim radicalism and the induction of Arabs and other Muslims into the dark arts of espionage and sabotage have only served to fan the flames in an already incendiary region and deepen the tensions between the Middle East and the West today An authority on international studies and the history of guerilla warfare Andr Gerolymatos offers the contemporary reader insight into the intelligence game that is still waged internationally with lethal intent and into the Middle Eastern terrorist networks that had evolved over the decades In this definitive account of covert operations in the Middle East the author brings to life the extraordinary men and women whose successes and failures have shaped relations and he reveals how the explosive nature of the region today has direct roots in the history of American and Western intervention

*Christians Under Siege* Patrick J. Roelle Sr., 2009-10-16 *Christians Under Siege* is a comprehensive study of the war on Christian values that started in the Arabian Desert and which now reaches into America's schools and workplace Barrack Hussein Obama declared that the United States is not a Christian Nation Historian Patrick Roelle disagrees To deal with Islam's terrorist we must understand Islam's Terrorist Islam rose out of the Arabia Desert because the strong oppressed the weak The world of Islam is not just a religion it's a form of government We are at a crossroads Some wish to cancel God from the equation enslave us to a future of debt we cannot repay place our energy dependence on the Muslim world while we lock our resources in the ground and transfer our wealth in exchange for government subsidies that will keep us subdued and we are falling for it Joseph Goebbels propagandist expert and Reich Minister of Public Enlightenment and Education for Nazi Germany once said If you tell a lie big enough and keep repeating it people will eventually come to believe it The American Muslim community has successfully employed these methods these past fifty years to indoctrinate our elected officials and the mainstream press in this country *Christians Under Siege* paints the true picture **The Global Muslim Community at a Crossroads** Abdul Basit Ph.D., 2012-01-16 Tackling a subject that is as timely as it is complex this expert work examines the turmoil inside Muslim communities helping outsiders to understand and insiders to examine ways in which Islam can be reinterpreted for a modern world *The Global Muslim Community at a Crossroads* Understanding Religious Beliefs Practices

and Infighting to End the Conflict is an illuminating work Written by an eminent psychologist who was raised as a Muslim in India and now resides in the United States it examines the core reasons for the current state of affairs in Muslim communities explaining the psychological underpinnings of Muslim religion and practices and the reasons they can fuel violence Drawing on the editor s exposure to Eastern and Western cultures and his longstanding interest in the study of comparative world religions this impartial analysis takes a multidimensional approach to explaining the current plight of Muslim countries It candidly discusses issues such as the influence of Islamic schools the negative and positive roles of Ulema religious scholars a lack of critical inquiry into religious thought Sharia and the status of women in Islam Finally there are positive suggestions about a road to recovery explaining how Muslim communities can address the interlocking problems they face while retaining the positive aspects of their beliefs

**Re-visioning Sufism** Jonas Atlas,2019-10-28 Sufism is often described as the mystical branch of Islam Giving some more attention to this underexposed spiritual side it is often proposed could help us to ease certain contemporary societal tensions One finger then points toward the rigorous religious aggression of fundamentalism as the problem while another points toward the soft beauty of mysticism as the solution Yet no matter how well intended the contemporary focus on Sufism might often be in the end it repeatedly portrays a lack of comprehension when it comes to Islamic mysticism The typical descriptions are full of mistakes and the conclusions they lead to need much nuance Those misunderstandings do not simply stem from innocent ignorance They are misunderstandings with more profound origins and implications They re closely tied to enormous blind spots in the contemporary view of religion and deeply entwined with pressing political issues In fact the way we deal with mysticism in general and with Sufism in particular actually kindles many contemporary conflicts This book thus seeks to add the necessary nuances correct the misunderstandings and unveil the contemporary politics of mysticism It seeks to clarify how the growing interest in what is called Sufism is connected to both the contemporary demonization of Islam and the modern destruction of profound spirituality in the East as well as the West
