## **Myanmar Blue 2017:**

**Anti-Corruption Evidence** Rick Stapenhurst, Rasheed Draman, Brooke Larson, Anthony Staddon, 2019-05-03 This book discusses parliamentary oversight and its role in curbing corruption in developing countries. Over the past decade a growing body of research at the global and regional levels has demonstrated that parliamentary oversight is an important determinant of corruption and that effective oversight of public expenditure is an essential component of national anti corruption strategies and programs. However little research has been undertaken at the country level regarding how parliamentary oversight is undertaken which oversight mechanisms are effective or on how national parliaments interact with other anti corruption stakeholders. This book presents the results of a new large scale quantitative analysis which identifies the mechanisms through which institutional arrangements impact corruption specifically through country case studies on the Caribbean region, Ghana, Myanmar, Nigeria, Tanzania and Uganda. Addressing a gap in scholarly knowledge while presenting practical policy advice for parliaments and for anti corruption assistance agencies, this book will be of use to scholars interested in development, anti corruption, public finance as well as members of parliament, anti corruption practitioners and organizations working in parliamentary strengthening.

## **The Blue Economy Handbook of the Indian Ocean Region**

V.N. Attri, Narnia Bohler-Muller, 2018-08-03 As humanity enters the Anthropocene epoch the oceans are more at risk than ever before as a result of the increased exploitation of its resources. The Indian Ocean is the third largest ocean in the world comprising 20% of the water on the Earth's surface. The sea lanes in the Indian Ocean are among the busiest in the world with more than 80 percent of global seaborne trade in oil transiting through the Indian Ocean and its vital chokepoints and an estimated 40% of the world's offshore oil production comes from the Indian Ocean. The importance of this region cannot be underestimated and there is no doubt that there are many opportunities for economic growth and job creation presented by the waters washing the shores of the Indian Ocean Rim. In order to ensure a desirable future for humanity it is necessary to make use of the oceans resources in a sustainable and responsible manner. Climate change is affecting the Indian Ocean negatively placing a strain on the ability to ensure food security and damaging the economies of small island states that depend on fisheries and aquaculture for their livelihoods. Increasing ocean temperatures and ocean acidification are taking a toll on ecosystems. This book is the first of its kind providing fresh insights into the various aspects and impacts of the Blue Economy in the Indian Ocean Region from shifting paradigms to an accounting framework, gender dynamics, the law of the sea and renewable energy. This handbook aims at increasing awareness of the Blue Economy in the Indian Ocean Region and to provide evidence to policy makers in the region to make informed decisions. The contributions are from a mixture of disciplines by scholars and experts from seven countries.

## **China, the UN, and Human Protection**

Rosemary Foot, 2020-05-27 Over a relatively short period of time Beijing moved from dismissing the UN to embracing it. How are we to make sense of the People's Republic of China's PRC embrace of the UN and what does its engagement mean in larger terms?

This study focuses directly on Beijing's involvement in one of the most contentious areas of UN activity human protection contentious because the norm of human protection tips the balance away from the UN's Westphalian state based profile towards the provision of greater protection for the security of individuals and their individual liberties The argument that follows shows that as an ever more crucial actor within the United Nations Beijing's rhetoric and some of its practices are playing an increasingly important role in determining how this norm is articulated and interpreted In some cases the PRC is also influencing how these ideas of human protection are implemented At stake in the questions this book tackles is both how we understand the PRC as a participant in shaping global order and the future of some of the core norms which constitute that order

Myanmar's Rohingya Genocide Ronan Lee, 2021-01-28 The genocide in Myanmar has drawn global attention as Nobel Peace Prize laureate Aung San Suu Kyi appears to be presiding over human rights violations forced migrations and extra judicial killings on an enormous scale This unique study draws on thousands of hours of interviews and testimony from the Rohingya themselves to assess and outline the full scale of the disaster Casting new light on Rohingya identity history and culture this will be an essential contribution to the study of the Rohingya people and to the study of the early stages of genocide This book adds convincingly to the body of evidence that the government of Myanmar has enabled a genocide in Rakhine State and the surrounding areas

**Blue Carbon Dynamics of the Indian Ocean** Abhra Chanda, Sourav Das, Tuhin Ghosh, 2022-03-21 This book gives an overview of various aspects of blue carbon dynamics from each country bordering the Indian Ocean Given the importance of the topic of blue carbon it can be assumed that in near future more and more researchers from the Indian Ocean countries will pursue environmental research in this domain This book is a ready reference to all those who are interested to have a holistic understanding about the ground scenario of blue carbon in the Indian Ocean There are many research institutes situated in the periphery of the Indian Ocean that are devoted to nurturing the new avenues of marine carbon research Researchers and scholars interested in this domain will find this book provides a good overview wherein all the necessary information on the status and functioning of these blue carbon ecosystems are detailed in a concise way The book is also helpful to postgraduate students of marine science or those who have a specialization in marine biogeochemistry or chemical oceanography to develop a basic understanding about the very concept of blue carbon from the perspective of the Indian Ocean

Bangladesh's Maritime Policy Abul Kalam, 2018-10-03 Following successive international legal verdicts Bangladesh is now an accredited maritime state Possessing a spacious territorial sea and an extended continental shelf with a maritime zone almost equalling its land borders a window of opportunity has opened for the country to realise its developmental aspirations Yet it faces numerous challenges many of which are entwined This book is a detailed analysis of Bangladesh's maritime strategy It charts the country's maritime legacies including disputes with both Myanmar and India and analyses the contributions of the leadership in the maritime territorial gains The author examines Bangladesh's need to consolidate these newly reclaimed gains whilst exploring the unremitting interest of major

global power players in maintaining maritime resource exploitation navigation and security Finally the author demonstrates how the country needs to embrace the notional principles of sustainable development of its ocean economy to utilize its resources and how it has since been coming to grips with the emerging concept of blue economy to enhance its enduring national development The first systematic study on Bangladesh s maritime policy and the country s importance in the emerging geopolitical rivalry in the Indian Ocean this book will be of interest to academics in the field of South Asian and Indian Ocean politics

**Global Blue Economy** Md. Nazrul Islam, Steven M. Bartell, 2022-11-28 A global blue economy is an economic arena that depends on the benefits and values realized from the coastal and marine environments This book explains the sustainable blue economy as a marine based economy that provides social and economic benefits for current and future generations It restores protects and maintains the diversity productivity and resilience of marine ecosystems and is based on clean technologies renewable energy and circular material flows
