

Additional Information about Finale for Windows

Finale Road Me, February 2020
Copyright © 2020, MakeMusic, Inc.

IMPORTANT: Read this document before you begin working with Finale, you may want to print a copy of it to keep with your Finale information.

This file contains important information about Finale not included in the User Manual, as well as information about converting older files into the new version's format. Please note that Finale files cannot be opened in versions of Finale prior to 2014 without being converted to a different format.

The Read Me contains the following sections:

Running Finale
New Features in Finale
Fixes in Finale

You may also visit www.finalemusic.com for updated information about Finale and information on new releases.

Running Finale

System Requirements

Windows 8/8.1/10 (64-bit only), 4 GB RAM minimum, 1280x800 minimum monitor resolution (high resolution displays not currently supported), High-speed Internet connection required for download, authorization, updates, and help resources, 1 GB hard drive space required for software with an additional 8 GB required for Garritan Instruments for Finale, ASIO, DirectSound, or WASAPI audio supported.

The system requirements listed are current as of release but are subject to change. Visit www.finalemusic.com/system-requirements to see the most up-to-date system requirements.

Installing Finale

If any previous version of Finale has been installed on the machine, Finale recommends that you restart your computer and log on as System Administrator before installing. This will prevent erroneous font warnings.

We recommend that you install Finale, and any other software, when logged in as System Administrator.

If you encounter problems during installation, we recommend that you do the following:

1. Turn off any programs running in the background. Virus detectors can often prevent Finale from installing necessary files and updating the registry. Rest assured, your Finale installer does not contain any viruses.
2. Press CTRL+SHIFT+ESC to open the Task Manager. Click on the **Details** tab (if this tab is not visible, click **More details**). In the **Details** tab, click **User name** to sort the running programs by user ID name. This lists every process that is running on the system.
3. Under the **User name** column, look at all of the processes in the **Name** column associated with your account name. Right-click each one, choose **End task**, and click **End process**. Do this for every process assigned to your name except **Taskmgr.exe**, **explorer.exe**, and **System Idle Process**.
4. Close the Task Manager.
5. Check your system tray (lower-right corner of the screen) for any running programs, especially antivirus software, which can interfere with proper installation of programs. Right-click each and choose **Quit**.
