## Chapter 7 Geometry Notes:

**Descriptive Geometry Notes** James C. Davis,1914     The Non-Euclidean Revolution Richard J. Trudeau,2013-12-01  
Richard Trudeau confronts the fundamental question of truth and its representation through mathematical models in The Non Euclidean Revolution First the author analyzes geometry in its historical and philosophical setting second he examines a revolution every bit as significant as the Copernican revolution in astronomy and the Darwinian revolution in biology third on the most speculative level he questions the possibility of absolute knowledge of the world Trudeau writes in a lively entertaining and highly accessible style His book provides one of the most stimulating and personal presentations of a struggle with the nature of truth in mathematics and the physical world A portion of the book won the P lya Prize a distinguished award from the Mathematical Association of America     **NBS Technical Note** ,1979-06     **SRA**
