Food Industry and Packaging Materials - Performance-oriented Guidelines for Users Salvatore Parisi, 2013-04-18

This book provides detailed and comprehensible information about Quality Control (QC) in the industry. Different viewpoints are explained in relation to food companies, packaging producers, and technical experts, including regulatory aspects. One of the most important steps is the comprehension of QC failures in relation to the food product, food packaging. The book also presents a detailed selection of proposals about new testing methods. On the basis of regulatory obligations in the EU about the technological suitability of food packaging materials, a list of performance-oriented guidelines is proposed. Food sectors are mentioned in relation to products, related packaging materials, known failures, and existing quality control procedures. This volume serves as a practical guide on food packaging and QC methods and a quick reference to food operators, official safety inspectors, public health institutions, Certification bodies, students, and researchers from the academia and the industry.

Natural Rubber Materials Sabu Thomas, Chin Han Chan, Laly A Pothan, Jithin Joy, Hanna Maria, 2013-12-05

The combination of its unique morphology, physical properties, cost effectiveness, and environmental friendliness make natural rubber an appealing constituent for many materials and applications. This comprehensive two-volume set covers the synthesis, characterization, and applications of natural rubber-based blends, interpenetrating polymer networks, composites, and nanocomposites. Volume 1 covers different types of natural rubber-based blends and IPNs, as well as manufacturing methods, thermo-mechanical characterization techniques, life cycle analysis, and their applications. Volume 2 focuses on natural rubber-based composites and Nanocomposites, including the different types of fillers, the filler-matrix reinforcement mechanisms, manufacturing techniques, and applications. This is the first book to consolidate the current state of the art information on natural rubber-based materials with contributions from established
