**Alan Northcott**

## **Metastock Programming Study Guide Download:**

**The Complete Guide to Using Candlestick Charting** Alan Northcott,2009 The investment world is full of different methods for understanding how to best grow your rates of return and minimize risk The Candlestick Charting method first developed by Japanese rice traders in the middle of the 19th century has become one of the favorite modern methods of analyzing and understanding the market through careful plotting and analysis of the data provided This book will guide you through the seemingly complex but revolutionary useful method of candlestick charting to gain the highest possible rates of return while ensuring your risks are as minimal as possible Candlestick charting is a complex language all in itself and for that reason this book will guide you through the entire process of understanding the language starting with the very origins of the technique You will learn how it was developed and why it is still used today including what changes have been made to the methods by Western investors You will learn how the candlestick charts are prepared and what the different line constructions signify Additionally you will be shown how to read and differentiate between the different bodies including the short and long white and black bodies to measure high and low price levels support and resistance You will be shown the various additional forms such as spinning tops shadows and doji Next the various different candle lines are outlined in full detail showing you dozens of different formations including the single candle lines of the hammer the hanging man and the shooting star the dual candle lines of dark cloud over the piercing pattern the engulfing pattern last engulfing pattern and harami You will also learn the window candle lines as well as the formations of three or more candle lines Analysis of candle lines and the technical aspects including how to discern stops the risk reward in each line trends the use of computers and how to place and offset trades will supply you with the necessary information you need to read the candle lines By interviewing dozens of experts in the reading and analysis of candle charts this book is able to provide a comprehensive perspective of candle charts and how you can start using moving averages analyzing three line break charts renko charts and kagi charts You will be provided with practice charts for all three major types and additional resources to help you learn how to read and analyze each type For anyone interested in the centuries old Japanese style of market analysis that is candlestick charting this book provides a comprehensive overview from the very origins to the most modern of interpretations Atlantic Publishing is a small independent publishing company based in Ocala Florida Founded over twenty years ago in the company president e tm s garage Atlantic Publishing has grown to become a renowned resource for non fiction books Today over 450 titles are in print covering subjects such as small business healthy living management finance careers and real estate Atlantic Publishing prides itself on producing award winning high quality manuals that give readers up to date pertinent information real world examples and case studies with expert advice Every book has resources contact information and web sites of the products or companies discussed

**The Complete Guide to Investing in Short-term Trading** Alan Northcott,2007 Short term trading refers to the practice of buying and selling financial instruments within the same trading week or at most

a few weeks Short term traders buy and sell stocks over a few days or weeks in the hope that their stocks will continue climbing in value for the time they own them making for quick and often huge profits Some of the more commonly traded financial instruments are stocks stock options currencies and futures contracts such as equity index futures interest rate futures and commodity futures Short term trading was once the preserve of banks financial firms and professional investors Many traders are bank or investment firms employees working in equity investment and fund management As with many other business segments the Internet technology and legislative changes have opened up this attractive marketplace to a new breed of individual investors and speculators working part time You and I can now stand on an even playing field with the largest banks wealthiest individuals and trading institutions from the comfort of home Short term trading can provide you with very high and secure rate of return as high as 12% 18% 24% or even 300% If performed correctly short term trading can far outpace all other investment techniques The key is to know how to perform this process correctly This all sounds great but what is the catch There really is none except you must know what you are doing This groundbreaking and exhaustively researched new book will provide everything you need to know to get you started generating high investment returns with low risk from start to finish In this easy to read and comprehensive new book you will learn how to set up your online account how to choose the correct software to use in trading how to get started in short term trading how to invest in short term stocks evaluate performance and handle fees and taxes This book delves into trading tactics for swing trading position trading leveraging the stock market selling short and pinpointing entry exits and targets for your trades You will pick up the language of a trader so that you recognize candlestick patterns advancing and declining issues and volume call options and put options You will know how to find the very best stocks every day how to read and prosper with stock charts how to use the New York Stock Exchange tick indicator and trading index TRIN the Commodity Channel Index CCI the moving average convergence divergence MACD the Dow 30 Day Moving Average As you read this book the mysteries of short term trading will unfold so that you can double or even triple your investment all while avoiding the common traps and pitfalls In addition we took the extra effort and spent an unprecedented amount of time researching interviewing e mailing and communicating with hundreds of today s most successful investors Aside from learning the basics of mutual fund trading you will be privy to their secrets and proven successful ideas Instruction is great but advice from experts is even better and the experts chronicled in this book are earning millions If you are interested in learning essentially everything there is to know about short term investing as well as hundreds of hints tricks and tips on how to earn enormous profits in short term investing while controlling your investments then this book is for you Atlantic Publishing is a small independent publishing company based in Ocala Florida Founded over twenty years ago in the company president e tm s garage Atlantic Publishing has grown to become a renowned resource for non fiction books Today over 450 titles are in print covering subjects such as small business healthy living management finance careers and real estate Atlantic Publishing prides itself on producing

award winning high quality manuals that give readers up to date pertinent information real world examples and case studies with expert advice Every book has resources contact information and web sites of the products or companies discussed
