**Make Your Resume Talk** Richard A. Hart, 2007-02-01 This book contains all the guidelines needed to help you write an advertisement resume that will get you interviews and a job It promotes writing results work statements rather than task and responsibility statements Key features include how to write 1 your heading in relation to space available 2 targeted objectives 3 work statements that use key words and still describe how good you are 4 skill sections that show your level of ability and 5 activities that show your chemistry Make Your Resume Talk is written in sections to help you build or re write your resume and help you tailor your resume to specific jobs Many before and after resumes with individual critiques on different occupations are included to show how to write statements that get attention of potential employers Helpful tips are provided throughout the book to highlight critical information for writing a resume that will talk for you Chapters are provided to cover all aspects of the resume plus special chapters on electronic resumes help for high school college students and the physical attributes of resumes Effective cover letter guidelines with examples are provided as a bonus Personal testimonials are scattered through the book to show you how the guidelines helped other users The success of his approach is shown by this quote from a Senior Corporate Recruiter from Red Hat which stated As a corporate recruiter I view hundreds of resumes daily filed with buzz words tasks and objectives that don t meet the candidate s background These resumes are quickly eliminated The resumes that follow the guidelines outlined in Dick Hart s book that show the depth of

the candidate's ability and how well the buzz words apply to their accomplishments are the ones we seriously consider. Diligent applicants need to follow his advice and list solid achievements from past/current performance.

*Electrical Engineer*, 1892    The Electrical Engineer, 1883    *Best Resumes for Scientists and Engineers* Adele Lewis, David Jewel Moore, 1993 In this major revision of her popular resource for scientists and engineers Adele Lewis joined forces with scientist and writer David J Moore to show technical professionals how to prepare resumes to fit the special requirements of their professions. Whether you're targeting an entry level job or a top management position *Best Resumes for Scientists and Engineers* gives you everything you need to create the kind of standout resume technical employers are looking for including all the basic elements that go into writing an effective resume: style, content, format, word choice, clearly defined objectives, career summaries, and more. Worksheets that take you step by step through the resume writing process, ten powerful resume formats, more than seventy-five sample resumes for twenty-five different hi-tech industries, tips on what you should and shouldn't say in a cover letter, five simple steps that will improve your chances of landing an interview.

**Basic Composition Skills for Engineering Technicians and Technologists** David W. Rigby, 2000-11 Very friendly, very practical, and very industry-oriented, this manual helps engineering technicians and technologists upgrade fundamental skills in writing by focusing on the problems that are encountered by writers and the solutions to those problems. Viewing technical writing as constructed/engineered writing, it shows how technical writing is really technical composing that combines text as well as visual/graphic and mathematical conceptualizations. Provides many writing samples and models that were developed for genuine applications in company settings. The down-to-earth, accessible style and how-to approach features a crisp, corporate seminar style presentation that gets to the point quickly and stays focused on topics and situations that are clearly relevant and immediately applicable. Part of *The Wordworks Series*, a series of four communication skills manuals: three writers' guides for engineering and technical applications and an additional guide to in-service spoken communication.

Finding the Starting Line, Thinking and Speaking, The Way We Write, False Starts, Project Preparation, The Main Event, Fundamental Project Architecture, Compound Architectures, Outline Controls, Paragraph Logic, Memoranda, Business Letters, Laboratory Reports, Bids, Estimates, and Proposals. For engineering technicians and technologists in a variety of fields: e.g., computer information systems, construction engineering, biomedical equipment technology, digital electronics, autocad, environmental control technology, microcomputer management, biotech, avionics, and many more.
