*Teaching AI in Film and Media Studies* Bridget Kies, Mel Stanfill, 2025-11-25 A timely intervention into the role of AI in teaching film and media studies this book offers insights into how scholars and educators can adapt their approaches in the face of emerging technologies Exploring the intersection of generative AI with film and media studies this book highlights the importance of addressing AI in the classroom It advocates for teaching AI literacy as an extension of media literacy encouraging students to

understand AI's biases and limitations. It explores the impact of AI on a variety of widely taught topics including copyright and remix culture, the concept of authorship and collaborative storytelling, film and media production, its potential in relation to speculative history and archival research, labor concerns in the media industries, as well as impacts on fans and audiences. The book considers how AI can foster creativity and critical thinking in students as they prepare for future roles in evolving media industries. Each chapter features suggested readings, activities, and assignments that can be implemented in and out of class to reinforce and cultivate AI literacy and proficiency. This book is an essential resource for faculty members in Film and Media Studies who want to know more about how to engage with generative AI tools in their teaching, as well as graduate students taking pedagogy-focused courses.

*Exploring the Ethical Implications of Generative AI* Ara, Aftab, Ara, Affreen, 2024-04-04. Generative Artificial Intelligence (AI), an ever-evolving technology, holds immense promise across various industries, from healthcare to content generation. However, its rapid advancement has also given rise to profound ethical concerns. Illicit black market industries exploit generative AI for counterfeit imagery, and in educational settings, biases and misinformation perpetuate. These issues underscore the need to grapple with the risks accompanying generative AI integration. *Exploring the Ethical Implications of Generative AI* emerges as a wellspring of insight for discerning academic scholars. It sets the stage by acknowledging generative AI's multifaceted potential and its capacity to reshape industries. The book addresses these complex ethical concerns, offering a comprehensive analysis and providing a roadmap for responsible AI development and usage. Its intended audience spans business leaders, policymakers, scholars, and individuals passionate about the ethical dimensions of AI.

**Critical Literacy in an AI World** Kathy A. Mills, Amanda Gutierrez, 2025-12-18. *Critical Literacy in an AI World* is an innovative book that uses critical literary perspectives to examine generative AI. It provides thought-provoking insights into advancements in artificial intelligence, which are increasingly entangled in human decision-making across all spheres of society, profoundly reshaping literacy and media practices. Mills and Gutierrez analyze how these transformations affect and are affected by the evolving nature of human knowledge, consciousness, creativity, emotion, ethics, and aesthetics. They highlight the importance of critical literacy for understanding and even reclaiming the power dynamics operating in the social construction of the human experience within AI-driven texts and technologies. This book encourages readers to critically navigate computational algorithms and agents that mediate digital social practices and daily life. Blending theoretical frameworks and practical applications, it advances students' critical AI-based digital reading and authoring skills, as well as teachers' capabilities to use critical pedagogies, curricula, and assessment for reflective AI text environments. *Critical Literacy in an AI World* is essential reading for students and researchers in literacy and educational technology.
