have passed since I started writing articles and the world of blogs has changed a lot. Honestly it changes every year. So to keep up with the times every year I attend SEO courses by Google, copywriting and basically every kind of course related to the world of blogs. Unfortunately there is no great course on the internet that explains how to build a blog and earn money by selling a product or service. That's why alongside my business I decided to write this book. Everything you will find in this book is the result of my experience and that's what allowed me to leave my job and be able to live only with my blogs. It's not a simple journey; making money with a blog is not a quick process and presents many pitfalls. Making sure that our blog reaches the first pages of Google results is a matter that takes much time and much work. And even if it is so fashionable, earning with your passions is unfortunately not a real matter. You cannot think to earn money only by writing; you always need to sell something, link a product like a service like an affiliation, etc. In this book I will try to be as clear as possible and show you how to set everything up properly in your blog and start to make a lot of money.
