

## BULATS tests

### What are the tests?

The BULATS tests are used to find out the level of language skills of an individual or group of individuals. They assess communication skills that are needed in real business situations, using materials based on real business texts, tasks and topics. They test all four language skills – reading, writing, listening and speaking.

### Flexible test options

You can pick any of the tests below to create the ideal combination for your organisation. As well as taking all four skills together, you can take the skill components as separate stand-alone tests. You can then choose when and where the tests are taken, rather than having to send employees out to a test centre.
