Financial Reporting And Analysis 5th Edition Alexander:

The Nature of Accounting Regulation Ian Dennis, 2013-10-15 Accounting standards are an essential element in the regulation of current financial reporting. Standard setters promulgate such standards and companies and professional accountants follow them in preparing financial reports. Although much has been written about the history of standard setting, the conceptual underpinnings of accounting standards, the process of setting them, and whether such standards should be rules based or principles based, there has been little written about the kind of thing they are. This book examines the nature of accounting standards and the very idea of a rule of implementation, guidance, and of the objectives that are included in them. It enables the reader to grasp the reasons for promulgating standards, the role of the conceptual framework in setting standards in an institutional context, and the kind of rules that are useful in regulating financial reporting. The insights provided by this examination are used to throw light on the distinction between principles based and rules based standards and on the nature of good accounting standards.

Banking Law and Financial Regulations John Abolarin, 2025-01-03 Evaluating the financial accounts of the Royal Bank of Scotland Group, Barclays, HSBC, and Standard Chartered Bank from 2004 to 2018 reveals a taste of the sweetness of success. It also demonstrates what could go wrong in a mega bank: the crippling price of failure and the long hard road to recovery. This book is a historical account of the causes of instability in the banking sector in the past 40 years and an evaluation of the effectiveness or otherwise of a range of laws and regulatory measures adopted to remedy financial crises in the UK over the years. In addition, the book provides a broad review of the evolutionary development of banking and financial laws, starting with seminal case laws on the subject: the Banking Act 1979, the repealed Banking Act 1987, FSMA 2000, the Company Act 2006, the Banking Reform Act 2013, Basel Accords, and sundry EU Directives. John, a Barrister at Law, offers a robust blend of theoretical knowledge and twenty years of practical industry experience in a commercial bank to provide legal perspectives on supervisory models necessary for stability in the banking sector while promoting justification for creating an enabling environment for wealth creation and economic growth. The Methods and Methodology chapter would be an invaluable companion for postgraduate students and researchers.
