Principles of Language Learning and Teaching H. Douglas Brown, 2014: A course in second language acquisition. *Designing Effective Language Learning Materials for Less Commonly Taught Languages* Öner Özçelik, Amber Kennedy Kent, 2023-08-01: A step-by-step guide to designing materials for learning world languages from expert instructional designers. Many teachers of less commonly taught languages or LCTLs find themselves in the position of needing access to quality language teaching and learning materials where none exist or where those that do are extremely outdated. *Designing Effective Language Learning Materials for Less Commonly Taught Languages* is a concise guide for language instructors or anyone with an interest in developing language learning materials. While leading instructors through the development process using the ADDIE model of instructional design (Analysis, Design, Development, Implementation, Evaluation), Öner and Kent present examples from many different languages, provide reflection questions for readers to consider at the end of each chapter, and give concrete strategies and tips throughout the process. Readers will come away from the book with a more comprehensive understanding of how to develop materials for world language learning in general and LCTL learning in particular, and a clear roadmap for doing so. Simply written and free of overly complicated jargon or rhetoric, *Designing Effective Language Learning Materials for Less Commonly Taught Languages* will be an invaluable reference for novice and experienced instructors alike, as well as directors of language programs.

Alatis, 1994-06-01: The papers in this volume examine strategies for language acquisition and language teaching, focusing on applications of the strategic interaction method.

Learners in the Arab World Muhammad Khan Abdul Malik, 2020-05-31 First of all the author wants to make it crystal clear that the present work is of a great benefit both for the English and Arab learners of the target language either Arabic or English This edition of the book pinpoints previous researchers findings regarding English and Arabic phonological morphological and syntactic similarities and differences and how all these differences result in mistakes and errors by the Arab learners of English in their learning process These mistakes or errors are unconsciously or involuntarily made by Arab learners of English due to the differences between the system and sub systems of the two languages The present attempt is the result of my realization as an English language teacher as to how a teacher can minimize students difficulties in learning of English and maximize their knowledge skills and competency of English as a foreign or second language This is the first edition The work is pedagogically oriented and primarily intended to make teaching learning of English as a foreign second language a bit easy especially for the first year university students of English language in the Arab world Gulf area such as KSA UAE Kuwait and the Middle East Area such as Jordan Syria Lebanon and so on The focus is on phonetic and morpho syntactic variations in Arabic and English languages This area of research becomes more interesting through the assumptions i information about the differences and similarities between Arabic and English language is to be supplied at an early stage since this facilitates the students learning task ii the differences are to be presented in pedagogically suitable format iii it is useful to separate and present phonetics morphological and syntactic categories as they function in suitable contexts and not merely abstract notions iv before students may tackle contrastive analysis they should have basic knowledge of Arabic and English languages similarities and differences and v pre modification and post modification of lexical and syntactic structures are to be explained appropriately
