China Through the Third Eye Garth Le Pere, 2004 China has turned into the most compelling developmental phenomenon in recent history It is also playing an increasingly important role in the political and economic life of South Africa in particular and Africa in general Growing numbers of South Africans are making their way to the Middle Kingdom many of

them at the invitation of the Chinese government to gain first hand experience of this fascinating country and are returning with impressions that are not always captured or shared This book is the first attempt to collate some of these views and insights The contributions are eloquent testimony to the growing interest by South Africans of different callings in making sense of the Chinese genius It is hoped that they will prove useful not only to students of China but will also provide an introductory panorama of Chinese life and society for the South African public This is a timely volume It represents the many strides that have been taken by both countries in developing their bilateral relations since the formal establishment of diplomatic relations in January 1998 equally importantly it is a symbol of the increasing people centred contact that has since taken place Bibliographic Index ,2001
