Computer Organization William Stalling 7th Edition:

Digital Design and Computer Organisation D. Nasib S. Gill, J.B. Dixit, 2008-12 Digital Design and Computer Organization introduces digital design as it applies to the creation of computer systems. It summarizes the tools of logic design and their mathematical basis along with in-depth coverage of combinational and sequential circuits. The book includes an accompanying CD that includes the majority of circuits highlighted in the text, delivering you hands-on experience in the simulation and observation of circuit functionality. These circuits were designed and tested with a user-friendly Electronics Workbench package Multisim Textbook Edition that enables your progression from truth tables onward to more complex designs. This volume differs from traditional digital design texts by providing a complete design of an AC-based CPU, allowing you to apply digital design directly to computer architecture. The book makes minimal reference to electrical properties and is vendor-independent, allowing emphasis on the general design principles.

The Essentials of Computer Organization and Architecture Linda Null, Julia Lobur, 2006 Computer Architecture Software Engineering Computer Organization and Architecture William Stallings, 2006 With up-to-date coverage of modern architectural approaches, this handbook provides a thorough discussion of the fundamentals of computer organization and architecture, as well as the critical role of performance in driving computer design. Captures the field's continued innovations and improvements with input from active practitioners. Reviews the two most prevalent approaches: superscalar, which has come to dominate the microprocessor design field, including the widely used Pentium and EPIC seen in the IA-64 architecture of Intel's Itanium. Views systems from both the architectural and organizational perspectives. Includes coverage of critical topics such as bus organization, computer arithmetic, I/O modules, RISC memory, and parallel processors. For professionals in computer product marketing or information system configuration and maintenance.
