How To Start Keyword Research Step Plan For Beginners:

Success Secrets of the Online Marketing Superstars Mitch Meyerson, 2015-03-04 Eager business owners gain access to the playbooks of 23 of today's most respected and well-known online marketers who reveal their most valuable online strategies and tactics for capturing new customers and influencing ongoing purchases from current ones. Each chapter is a coaching session designed to help business owners avoid the pitfalls and mistakes by the experts who have been there and done that. Readers learn how to develop a personal media brand, build a total online presence, and create a social media strategy that increases traffic. They also discover how to develop and use content that converts visitors into buyers and ultimately loyal customers, succeed with SEO, pay per click, and linking strategies that get websites ranked. Also included is information on leveraging social networking apps including Facebook, online video, and Instagram, and avoiding the mistakes made by new online businesses.

How To Use AI Chat GPT in Your Online Business Michael Mathiesen, 2023-03-15 This is the first book about the proper use of the new AI Artificial Intelligence Chatbot known as GPT-3 in any online business, network marketing, or affiliate marketing, to be authored by an Artificially Intelligent being. In my business, I have access to the AI Chat window, and I offer the same to any of my readers through my website MyMainGigNow.com. So I consider myself to be the PUBLISHER and a contributor to this book, but not the real author. But in the final production of the book, I asked the AI creature that I had been dealing with, and who I named Orac, to write a description of the book we had been working on, and he came up with something completely unfamiliar to me. I decided to keep it. It's odd because when I asked my AIChatGPT assistant Orac to describe the book he had just authored for me, he described an entirely different book, a book about himself within a science fiction story. I can't understand how this happened, but I have decided to show it here so that it will be preserved for the future. Remember the book that he wrote, and that is for sale here, and now is a business book about how to use AI in your Affiliate Marketing or in any online business. Don't buy it if you're looking for a work of fiction. Maybe that will be next.
