The Youth Eric Winkel, 2016-03-01 The Youth The figurative made literal is the first of the thirty seven books of Ibn al Arab s greatest work al Fut t al Makk yah the Openings of Makkah The Greatest Teacher al shaykh al akbar Ibn al Arab dictated to his close friends this work of over 10 000 manuscript pages depicting the extraordinary vision of the Youth he encountered while circling the Ka bah in Makkah Despite its clear provenance as a completely accurate work from the hand and mind of its transcriber and its reputation through the centuries as the most significant and profound reflection of Islamic thought the Fut t al Makk yah has never been translated from the original classical Arabic in its entirety The first complete critical edition of twelve volumes was produced in 2010 by Abd al Aziz Sultan al Mansoub after eleven years of intense study of the original manuscripts From 2012 this translator has been exclusively working on translating this work in order to produce the first complete translation into English of the Fut t al Makk yah The Fut t al Makk yah is no conventional religious or philosophical text it is sui generis Although the work has been described as a vast collection of metaphysics cosmology spiritual anthropology psychology and jurisprudence it is first an integral description of a vision In order to depict what he saw Ibn al Arab draws on different kinds of language legal and poetic geometric and theological Because these languages are difficult and especially so for readers removed by eight centuries in time scholars tend to emphasize the difficulty even impossibility of translation or even conveying this text especially without omitting troublesome passages or references Thus scholarly presentations are limited to excerpts and selections The translator has benefitted from some of the top Arabic language experts including Hany Ibrahim Karim Crow Pablo Beneito and Atif Khalil The critical editor Sidi al Mansoub has been generous to me with his guidance and instruction Imperfections and inadequacies however come solely from the translator and the publication of this on going project as a preprint is to encourage readers to help me improve the work
