War on Gaza Abdo Hassoun,2025-05-30 The relentless bombardment and blockade on Gaza have not only drastically restricted the inflow of essential food supplies but have also led to a catastrophic humanitarian crisis with unprecedented casualties The widespread destruction has crippled the ability of the population to grow and process food leaving Gazans without sufficient access to basic nutrition and pushing them to the brink of famine Building on the previous work of Dr Hassoun on acute food insecurity and malnutrition in Gaza this book addresses not only Sustainable Development Goal SDG 2 Zero Hunger SDG 3 Good Health and Well being and SDG 6 Clean Water and Sanitation but all seventeen SDGs While brief reports have been published on the topic this will be the first in depth scholarly work offering case studies data driven analysis from various fields and a comprehensive examination of the multidimensional and

devastating impacts of war With an urgent and multidisciplinary perspective this book highlights the interconnectedness of war sustainability and global security emphasizing how hostilities in Gaza have reversed progress toward achieving all SDGs both in Gaza and beyond Bringing together diverse expertise from 60 authors across 27 countries the book showcases the international and interdisciplinary collaboration underlying its research Through a series of carefully curated chapters written by specialists in various fields it provides a comprehensive analysis of how war has affected societal structure economic resilience and environmental sustainability in Gaza For each issue addressed the text offers strategic insights and practical measures aimed at mitigating damage and fostering resilience This book serves as a critical resource for policymakers researchers humanitarian organizations and anyone who is interested in understanding and addressing the complex dynamics of conflict and sustainability Chapter Waiting for a Better Time Is a Waste of Time Motivations of Learning Amid the Genocide in Gaza in Light of Sustainable Development Goal 4 is available open access under a Creative Commons Attribution 4.0 International License via link springer.com

Transmission Electron Microscopy C. Barry Carter, David B. Williams, 2016-08-24 This text is a companion volume to *Transmission Electron Microscopy: A Textbook for Materials Science* by Williams and Carter The aim is to extend the discussion of certain topics that are either rapidly changing at this time or that would benefit from more detailed discussion than space allowed in the primary text World renowned researchers have contributed chapters in their area of expertise and the editors have carefully prepared these chapters to provide a uniform tone and treatment for this exciting material The book features an unparalleled collection of color figures showcasing the quality and variety of chemical data that can be obtained from today's instruments as well as key pitfalls to avoid As with the previous TEM text each chapter contains two sets of questions one for self assessment and a second more suitable for homework assignments Throughout the book the style follows that of Williams Carter even when the subject matter becomes challenging the aim is always to make the topic understandable by first year graduate students and others who are working in the field of Materials Science Topics covered include sources in situ experiments electron diffraction Digital Micrograph waves and holography focal series reconstruction and direct methods STEM and tomography energy filtered TEM EFTEM imaging and spectrum imaging The range and depth of material makes this companion volume essential reading for the budding microscopist and a key reference for practicing researchers using these and related techniques
