Numerical Solution of Algebraic Riccati Equations Dario A. Bini, Bruno Iannazzo, Beatrice Meini, 2011-01-01 This treatment of the basic theory of algebraic Riccati equations describes the classical as well as the more advanced algorithms for their solution in a manner that is accessible to both practitioners and scholars It is the first book in which nonsymmetric algebraic Riccati equations are treated in a clear and systematic way Some proofs of theoretical results have been simplified and a unified notation has been adopted Readers will find a unified discussion of doubling algorithms which are effective in solving algebraic Riccati equations as well as a detailed description

of all classical and advanced algorithms for solving algebraic Riccati equations and their MATLAB codes This will help the reader gain an understanding of the computational issues and provide ready to use implementation of the different solution techniques
