Escape From Reason A Penetrating Analysis Of Trends:

Escape from Reason Francis August Schaeffer, 1970 *Adventism Confronts Modernity* Robert J. Mayer, 2017-02-16

Many restorationist oriented associations like the Advent Christian Church often embrace two conflicting principles First they understand the Bible s inspiration and authority in a way that minimizes the importance and value of church tradition Second they give high value to individual autonomy both in biblical interpretation and in church governance *Adventism Confronts Modernity* describes what can happen when these principles conflict and make it difficult to resolve theological conflict This work begins by exploring the nineteenth century historical and theological roots of early Adventism with special attention to William Miller and the theological impact of the Great Disappointment the failed prediction of the early Adventists that Jesus Christ would return visibly in 1843 or 1844 Subsequent chapters explore the Fundamentalist Modernist controversies of the early twentieth century and focus on the impact of those events on the two colleges that trained Advent Christian clergy Aurora College now Aurora University and New England School of Theology later Berkshire Christian College After discussing theological reform efforts within the Protestant mainline and fundamentalist coalitions this book describes the conflicting views regarding the Bible s inspiration that emerged in the early twentieth century and their impact on the Advent Christian Church during the 1950s and 1960s It concludes that further reflection is needed on both the doctrine of Holy Scripture and how restorationist movements balance Christian theology with individual and congregational autonomy

Beating the Bounds Sidney L. Green, 2013-03-08 Using the form of the classical symphony as an analytical and critical tool Sidney Green examines the concepts of orthodoxy and heresy and their historical development in the Christian church and applies those to the confessional approach of the Global Anglican Future Conference GAFCON Using examples from history of the early church the Reformation and the contemporary emerging church Green examines how the concept of boundaries and the exercise of ecclesiastical authority have been applied Contemporary attempts to respond to the postmodern paradigm producing a neo dynamic view of orthodoxy including radical ideas in the area of sexuality are examined Recognizing a dynamism in Anglican orthodoxy that is still very much alive alongside present attempts of conservative minorities to impose their view on the Communion sometimes by very devious means the distinctives of Anglican ecclesiology are discussed in the belief that ecclesiology is the outward expression of what theologically undergirds Anglican orthodoxy Current attempts to bring harmony and stability in place of fracture and dissonance culminating in the suggestion of an Anglican Covenant are examined Possible alternate ways forward are suggested centered on the primacy of love

Half-Century Morris Janowitz,1978 Janowitz examines the societal changes that have weakened the electoral system and
contributed to the further decline of social control and encourages the development of new forms of citizen participation
 Social Change and Politics Morris Janowitz,2017-07-05 This classic study deals with social control in advanced
industrial society especially the United States and particularly the half century after World War I The United States is
representative of Western advanced industrial nations that have been faced with marked strain in their political institutions
These nation states have been experiencing a decline in popular confidence and distrust of the political process an absence of
decisive legislative majorities and an increased inability to govern effectively that is to balance and to contain competing
interest group demands and resolve political conflicts Janowitz uses the sociological idea of social control to explore the
sources of these political dilemmas Social control does not imply coercion or the repression of the individual by societal
institutions Social control is rather the face of coercive control It refers to the capacity of a social group including a whole
society to regulate itself Self regulation implies a set of higher moral principles beyond those of self interest Since the end of
World War II the expanded scope of empirical research has profoundly transformed the sociological discipline The repeated
efforts to achieve a theoretical reformulation have left a positive residue but there have been no new conceptual
breakthroughs that are compelling This book is a concerted and detailed effort organize and to make sense out of the vastly
increased body of empirical research *The Illustrated Weekly of India* ,1964 *Aryan Path* ,1947 *The Aryan Path*
