Contemporary Criminal Law Matthew Lippman,2006-08-08 Contemporary Criminal Law Concepts Cases and Controversies is an introductory text that features the new criminal law expanding on traditional criminal law cases and concepts with contemporary topics and issues Author Matthew R Lippman uses an engaging case study approach to enhance student learning and offer an interactive educational environment **The Crime of Aggression in International Criminal Law** Sergey Sayapin,2014-01-10 Since after the Second World War the crime of aggression is along with genocide crimes against humanity and war crimes a core crime under international law However despite a formal recognition of aggression as a matter of international criminal law and the reinforcement of the international legal regulation of the use of force by States numerous international armed conflicts occurred but no one was ever prosecuted for aggression since 1949 This book comprehensively analyses the historical development of the criminalisation of aggression scrutinises in a detailed manner the relevant jurisprudence of the Nuremberg and Tokyo Tribunals as well as of the Nuremberg follow up trials and makes proposals for a more successful prosecution for aggression in the future In identifying customary international law on the subject the volume draws upon a wealth of applicable sources of national criminal law and puts forward a useful classification of States legislative approaches towards the criminalisation of aggression at the national level It also offers a detailed analysis of the current international legal regulation of the use of force and of the Rome Statute s substantive and procedural provisions pertaining to the exercise of the International Criminal Court s jurisdiction with respect to the crime of

aggression after 1 January 2017 *The Betrayal* Kim Christian Priemel, 2018-05-17 At the end of World War II the Allies faced a threefold challenge how to punish perpetrators of appalling crimes for which the categories of genocide and crimes against humanity had to be coined how to explain that these had been committed by Germany of all nations and how to reform Germans The Allied answer to this conundrum was the application of historical reasoning to legal procedure In the thirteen Nuremberg trials held between 1945 and 1949 and in corresponding cases elsewhere a concerted effort was made to punish key perpetrators while at the same time providing a complex analysis of the Nazi state and German history Building on a long debate about Germany's divergence from a presumed Western path of development Allied prosecutors sketched a historical trajectory which had led Germany to betray the Western model Historical reasoning both accounted for the moral breakdown of a civilised nation and rendered plausible arguments that this had indeed been a collective failure rather than one of a small criminal clique The prosecutors therefore carefully laid out how institutions such as private enterprise academic science the military or bureaucracy which looked ostensibly similar to their opposite numbers in the Allied nations had been corrupted in Germany even before Hitler's rise to power While the argument depending on individual protagonists subject matters and contexts met with uneven success in court it offered a final twist which was of obvious appeal in the Cold War to come if Germany had lost its way it could still be brought back into the Western fold The first comprehensive study of the Nuremberg trials *The Betrayal* thus also explores how history underpins transitional trials as we encounter them in today's courtrooms from Arusha to The Hague *Shocking the Conscience of Humanity* Margaret M. DeGuzman, 2020 The literature and jurisprudence of international criminal law relies on the claim that international crimes are exceptionally grave They shock the conscience of humanity They are atrocities Yet what makes international crimes especially grave is rarely explained Addressing the balance Margaret DeGuzman explains what affect the historical occurrences that led to the heavy reliance on the concept of gravity including the atrocities of the World War II era and the crimes of Yugoslavia and Rwanda had on international law DeGuzman demonstrates how in later decades gravity has been used to obscure controversial value choices This book looks to build the legitimacy of the international criminal law regime by exposing the value choices that the rhetoric of gravity entails and poses a new framework for assessing the legitimacy of international criminal law Instead of solely relying on gravity DeGuzman looks to wider values to ensure the continued legitimacy of international criminal law

Comparative Criminal Justice Systems Philip L. Reichel, 1999 Discussing how various countries around the world have organized their police courts and corrections agencies this insightful text provides the rationale for studying cross national issues in criminal justice by giving students a knowledge base for understanding and appreciating the different ways justice is conceived and achieved around the world *The Georgia Journal of International and Comparative Law*, 2012

Bowker's Law Books and Serials in Print, 1995 **Law and Society** Matthew Lippman, 2020-08-07 Law and Society offers a contemporary overview of the structure and function of legal institutions along with a lively discussion of criminal

and civil law and their impact on society Author Matthew Lippman draws on insights from over thirty years of teaching to develop an interdisciplinary approach that introduces students to both the influence of law on society and the influence of society on the law Distinctive coverage of diversity inequality civil liberties and globalism provides an incisive look at the intersection of theory and practice The highly anticipated Third Edition includes updated discussions of issues facing today s society including inequality international human rights privacy and surveillance and social control Included with this title The password protected Instructor Resource Site formally known as SAGE Edge offers access to all text specific resources including a test bank and editable chapter specific PowerPoint slides
