The McKinsey Approach To Problem Solving:

Cracked it! Bernard Garrette, Corey Phelps, Olivier Sibony, 2018-06-08 Solving complex problems and selling their solutions is critical for personal and organizational success For most of us however it doesn't come naturally and we haven't been taught how to do it well Research shows a host of pitfalls trips us up when we try We're quick to believe we understand a situation and jump to a flawed solution We seek to confirm our hypotheses and ignore conflicting evidence We view challenges incompletely through the frameworks we know instead of with a fresh pair of eyes And when we communicate our recommendations we forget our reasoning isn't obvious to our audience How can we do it better In *Cracked It* seasoned strategy professors and consultants Bernard Garrette Corey Phelps and Olivier Sibony present a rigorous and practical four step approach to overcome these pitfalls Building on tried and tested but rarely revealed methods of top strategy consultants research in cognitive psychology and the latest advances in design thinking they provide a step by step process and toolkit that will help readers tackle any challenging business problem Using compelling stories and detailed case examples the authors guide readers through each step in the process from how to state structure and then solve problems to how to sell the solutions Written in an engaging style by a trio of experts with decades of experience researching teaching and consulting on complex business problems this book will be an indispensable manual for anyone interested in creating value by helping their organizations crack the problems that matter most *Solvable* Arnaud Chevallier, Albrecht Enders, 2022-05-11 A 3 step process for solving complex problems of any kind *Frame Ideate Decide Solvable* offers practical tools that are both evidence based and presented in an accessible and visual way to help you improve all aspects of problem solving at work and home [The Future of Executive Development](#) Mihnea C. Moldoveanu, Das Narayandas, 2021-11-30 Executive development programs have entered a period of rapid transformation driven by digital disruption and a widening gap between the skills that participants and their organizations demand and those provided by their executive programs This work delves into the objective functions of the executive development space analyzes the demand characteristics of the learners and the organizations that pay for the programs and the ways in which business schools and other providers deliver or not on the promises they make regarding skill development and the continued value of learning to the organization They show how a trio of disruptive forces disintermediation disaggregation and decoupling which have figured prominently in industries disrupted by digitalization are reshaping the structure of demand for executive development The authors look at the future of executive development in the era of self refining algorithms aka machine learning and wearable sensors and computers and offer a compass for making the right choice for CEOs and CLOs who are guiding executive program design Ultimately they offer a guide for to optimize the learning production function for both skill acquisition and skill transfer the two charges that the new skills economy has laid out for any educational enterprise *The Road to Champagne* Alejandro Colindres Frañó, 2022-05-17 Don't get stuck Too many smart and well educated young professionals struggle growing and

Engagement Design Nelson Zagalo,2020-03-17 Interactive media designers have been discussing modes to optimize interaction design beyond mere usability With the arrival of Emotional Design followed by the success of the User Experience UX approaches the discussion continued and augmented Experience has become a complex buzzword which is more about the subject s experience than the product and this is why it s difficult or even impossible to define it in a concise manner We propose to move the discussion from Experience towards Engagement to emphasize the design of the relationship between artefacts contexts and users Engagement asks for a more concrete type of experience with specific needs motives skills and competences which can be more clearly worked into the design of artefacts Engagement also differs from other concepts e g fun enjoyment happiness or well being and is open enough to grant freedom to designers in creating their personal world views To push this new approach we offer in this book a full model for the

design of engagement in interactive media still believing it can be applied beyond that The model is arranged around what we call the three engagement streams Progression Expression and Relation

Management Consultancy and the British State Antonio E. Weiss, 2018-10-26 This book traces the emergence and development of the relationship between management consultancies and the British state It seeks to answer three questions why were management consultants brought into the machinery of the state how has state power been impacted by bringing profit seeking actors into the machinery of the state and how has the nature of management consultancy changed over time The book demonstrates the role consultants played in major developments in the postwar period Specific case studies interrogate how consultancies influenced the policy fields of health service reform and social security benefits This book will redefine debates amongst business historians and historians of the postwar British state about the nature of management consultancy and public sector reform
