The Cognitive Structure Of Emotions:

The Cognitive Structure of Emotions Andrew Ortony, Gerald L. Clore, Allan Collins, 1988 It has long been clear that the way in which people interpret the world affects our emotional reactions What has been less clear is exactly how such different interpretations lead to different emotions This is the central question addressed by The Cognitive Structure of Emotions Taking a cognitive science perspective a systematic account is presented of the cognitive structures that underlie a wide range of different emotions Detailed proposals about the factors that affect intensity are also offered The authors propose three broad classes of emotions each corresponding to a different attentional focus One class consists of reactions to events one of reactions to the actions of agents and one of reactions to objects By basing their analysis of the antecedents of emotions on an analysis of the perceived situational conditions that elicit them the authors offer the prospect of accounting for variations in the emotions of different individuals different cultures and perhaps even different species The Cognitive Structure of Emotions Andrew Ortony, Gerald L. Clore, Allan Collins, 2022-08-18 More than 30 years after its initial publication this new edition of The Cognitive Structure of Emotions refines and updates Ortony Clore and Collins s OCC model of emotions Starting from a three way classification of construals of the world events the attribution of responsibility for events and objects the authors propose a systematic account of emotion differentiation Rejecting the oft favored features of bodily feelings emotion related behaviors and facial expressions as too intensity dependent and insufficiently diagnostic they provide a detailed analysis of emotion differentiation in terms of the cognitive underpinnings of emotion types Using numerous examples they explain how different variables influence emotion intensity and show how emotions can be formalized for computational purposes Now with a contributed chapter describing the OCC model s influence this book will interest a wide audience in cognitive clinical and social psychology as well as in artificial intelligence and affective computing and other cognitive science disciplines The Cognitive Structure of Emotions Andrew Ortony, Gerald L. Clore, Allan Collins, 1988 **The Cognitive Structure of Emotions** Elizabeth Elliot, 1991 **Culture and Emotion** Agneta Fischer, A. S. R. Manstead, 2002 The papers in this special issue on culture and emotion outline a new approach to the relationship between culture and emotion which extends beyond the universalism relativism debate **The Cognitive Structures and Processes of Human Motivation and Personality** Vernon Hamilton, 1983 Psychology, Pedagogy, and Assessment in Serious Games Connolly, Thomas M., Hainey, Thomas, Boyle, Elizabeth, Baxter, Gavin, Moreno-Ger, Pablo, 2013-11-30 This book addresses issues the potential of games to support learning and change behaviour offering empirical evidence pertaining to the effectiveness of Serious Games in the key areas of psychology pedagogy and assessment **Gamification: Concepts, Methodologies, Tools, and Applications** Management Association, Information Resources, 2015-03-31 Serious games provide a unique opportunity to engage students more fully than traditional teaching approaches Understanding the best way to utilize games and play in an educational setting is imperative for effectual learning in the twenty first century
