

AP Statistics – Chapter 4 Test Review

Sampling Error

Occurs in the act of choosing the sample

- ❖ Undercoverage – certain members of population are 'left out'

Suppose we use poll people a group of people at a golf tournament about how they feel about the Affordable Care Act...

Non Sampling Error

Occurs after sample is chosen

- ❖ Non response – cannot be surveyed or refuse to answer question.
- ❖ Response Bias
- ❖ Poorly Worded Questions

QUESTIONS:

#1. Which type of error is made when you use phone calls to sample people, but you call during working hours?

- Answer: **Non Response (non sampling error)**

#2. Which type of error is made when you use a telephone to sample people?

- Answer: **Under coverage (sampling error)**

#3. What type of error is shown below:

- Question: "How do you feel that the extremely expensive Affordable Care Act will help you and your family's overall health and wellness?"
- Answer: It is a poorly worded question (non-sampling error) and will **UNDERESTIMATE** the support for the A.C.A.

- ❖ Voluntary Response Sample
 - Participants 'choose' or volunteer themselves (not random; very biased)
- ❖ Convenience Sample
 - We only include who is 'convenient' to survey. (not truly random; biased)
- ❖ Simple Random Sample (SRS)
 - Every person has an equal chance to be selected ("all the names are in 'one pot'")
DO NOT BREAK INTO GROUPS!!!
- ❖ Stratified Random Sample
 - Population is divided into groups or 'strata' that are made up of similar individuals within each group. You do an SRS within each group.
- ❖ Systematic Sample
 - We sample every 'kth' person after the first person is randomly selected.
- ❖ Multi-Stage Sample
 - Done on a large scale; combining other types of sampling methods; you sample to choose **GROUPS**, then sample within the groups.
- ❖ Cluster Sample
 - Population is divided into groups that don't necessarily all look alike; the clusters should 'mirror the population; you sample to choose **GROUPS**, then take a census within the group.

caused by being anxious Work on the easier questions first If you find yourself working too long on one question make a mark next to it in your test booklet and continue After you have answered all of the questions that you can go back to the ones you have skipped Use the process of elimination when you are unsure of an answer If you can eliminate three of the answer choices you have given yourself a fifty fifty chance of getting the item correct since there will only be two choices left from which to make a guess If you cannot eliminate at least three of the answer choices you may choose not to guess as you will be penalized one quarter of a point for every incorrect answer Questions not answered will not be counted Be sure that you are marking your answer in the oval that corresponds with the correct item in the test booklet Since the multiple choice section is graded by machine marking the wrong answer will throw off your score
