The Bedford Book of Genres Amy Braziller, Elizabeth Kleinfeld, 2025-04-03 The Bedford Book of Genres is a multimodal guide that uses annotated readings and guided processes to support students as they read and write in any genre

Wise Up! Christian Jerusalem, 2025-09-16 Part One presents the challenge of the Silver Tsunami providing evidence of the disruptive nature of this unprecedented demographic shift It shows why ignoring the challenges of an aging workforce negatively affects innovation and competitiveness You will learn why a well implemented Wise Organization strategy leverages the strengths of each generation ensuring long term success and driving innovation in today s rapidly evolving business landscape Part Two shares insights for what you need to consider when taking action These chapters go into debunking myths about older workers and what it looks like when age management goes wrong This section also examines the critical role of the People and Culture function and reframes Inclusion in the context of an aging workplace The chapter closes with an outline for how to navigate the Wise Management agenda as a strategic priority Part Three provides a clear step by step guide on how to build a Wise Organization that unleashes the full potential of your mature workforce while optimizing inter generational synergies You will learn how building a Wise Organization gives your company a distinct competitive advantage allowing you to achieve your corporate goals more effectively Part Four focuses on the future As demographic change becomes an unstoppable force organizations will have to get ready for the longevity economy Learn how visionary leaders will continue to transform their workplaces to thrive amid shifting age dynamics ensuring their organizations remain resilient and relevant for generations of employees yet to come

Influence of digitalization on the requirements and competencies in the area of sales management Timo Zimenga, 2021-12-21 Master s Thesis from the year 2020 in the subject Leadership and Human Resources

Miscellaneous grade 1 8 University of applied sciences D sseldorf language English abstract Can humans be replaced by robots or intelligent systems such as artificial intelligence Are they becoming less important because of the digital revolution Are humans changing in terms of the orientation of their competences also due to the effects of the digital revolution These questions are often asked in the context of the work between man and machine In order to find about more about a possible change in competences caused by the effects of the digital revolution this Master thesis deals with the Influence of digitalization on the requirements and competencies in the area of sales management An empirical study of DAX companies and educational institutions First of all a basic theoretical knowledge will be provided in order to work on and answer this topic On the one hand the digital transformation the area of leadership and on the other hand the area of competence

takeover by intelligent systems will be presented To collect and evaluate data an empirical study was conducted at DAX companies and Germany s leading universities and colleges in order to be able to identify possible shifts in competence on the basis of valid data The result of the empirical analysis is a competence structure which results in an interesting form The study has shown that contrary to expectations the technical and IT heavy competences as well as the competences related to the digital revolution are not as important for leaders as other competences such as personal ethical and social communicative competences which are important for leaders acting in the digital age This and other results such as the distribution within the competence classes and whether a competence shift from man to machine and other intelligent systems is possible are presented in the final part of this Master thesis
