Armani Murphy, 2020-02-26 Are you ready to get started with laying a foundation for your future using a tried and true passive income avenue Then you re ready to learn about investing in index funds Unlike more traditional forms of mutual fund investments which are actively managed by the investor or by the broker

investing in index funds results in passive income meaning that after the initial investment you don't need to put regular time effort or expense into your investment. Since you as the investor don't need the help of analysts and managers to give you advice on what to invest in, it cuts down on the expenses necessary to maintain your portfolio. And many experts say that passive investments actually perform better than actively managed higher risk investments. Index funds are one way to work along with the market rather than trying to play against it and win. Passive income created through index funds is a great way to build for your future including creating a higher return for your retirement income.
