[Unix System Management](#) Jeff Horwitz, 2002. Annotation. This book jump-starts the educational process, providing the essential concepts and fundamental strategies that are used by UNIX system administrators every day. Offers a thorough and detailed approach to the concepts and methodologies that govern UNIX system management. Covers a wide range of systems topics not covered in any other books on UNIX system administration. Written by an practicing UNIX system administrator with eight years of experience managing enterprise-level UNIX systems. *UNIX System Management Primer* Plus describes in detail the concepts and methodologies that govern UNIX system administration. Its focus is both analytical and task-oriented. It covers the entire lifecycle of a system from design to decommission and explores the reader's role as an administrator. Topics not usually covered in more specific books are discussed, such as collocation facilities, user communication, and disaster recovery. The focus of this book is how to be a system administrator, not how to administer your system. Jeffrey S. Horwitz has worked with UNIX systems for over eight years, both as a user and an administrator. He has administered a wide range of systems from single-user workstations to highly-tuned enterprise database servers. At the University of Michigan, he managed several campus UNIX services for over 65,000 users. In the ISP world at LaserLink Net and Covad Communications, he managed over 150 servers providing e-mail, dial-up, and billing services to over 800,000 users across the country. Currently, he is the manager of production systems at TargetRx Inc, where he maintains their entire UNIX infrastructure, having designed and built it from scratch. Jeff holds a B.S. in Cellular Molecular Biology from the University of Michigan, is an active member of Usenix and SAGE, and is a Sun Certified System Administrator.
