*Beyond ADHD* Jeff Emmerson, Robert Yehling, 2017-08-31 *Beyond ADHD* weaves Emmerson's personal story of his ADHD diagnosis exploring along the way the latest medical scientific and societal explanations and tools for managing and living with the condition Including interviews with a number of experts at the forefront of next generation ADHD diagnostics and treatment he questions the cookie cutter way ADHD is commonly diagnosed and treated Suggesting that the list of symptoms often used to identify ADHD can be attributed to many other disorders and conditions he explores how and why ADHD diagnoses have increased by 50% in the last ten years Emmerson advocates a different approach to ADHD arguing that it should be a diagnosis of exclusion rather than the other way around and that we must look past the label recognizing that individual symptoms vary and treatment plans should be better tailored to the individual He examines mental and behavioral issues from all sides including the possibility that nurturing rather than trying to alter or suppress the active 360 degree mind is a viable way for those diagnosed with ADHD to realize their gifts and lead purposeful lives [Beyond Environmental Law](#) Alyson C. Flournoy, David M. Driesen, 2010-02-26 This book offers a vision for the third generation of environmental law designed to enhance its ability to protect our environment The book presents two core proposals an Environmental Legacy Act to preserve a defined environmental legacy for future generations and an Environmental Competition Statute to spark movement to new clean technologies The first proposal would require for the first time that the federal government define an environmental legacy that it must preserve for future generations The second would establish a market competition to maximize environmental protection The balance of the book provides complementary proposals and analysis The first generation of environmental law sought broad protection of health and the environment in a fairly fragmented way The second sought to enhance environmental law's efficiency through cost benefit analysis and market mechanisms These proposals seek to create a broader more creative approach to solving environmental problems [Beyond the Stars: The material world in American popular film](#) Paul Loukides, Linda K. Fuller, 1990 The third of five volumes of new scholarship on American movie conventions The 19 essays explore cinematic representations of such material items as food weapons clothing tools technology and art and literature Not illustrated No index Paper edition unseen 13 95 Annotation copyright by Book News Inc Portland OR [California.
