

A close-up, low-angle shot of an ant colony. The scene is dimly lit with a warm, golden-brown glow, likely from a light source below. In the center, a large, dark brown ant is the primary focus, its body and legs clearly defined. To its right, a smaller, lighter-colored ant is visible, and further back, another ant is partially seen. The background is a soft, out-of-focus mix of dark and light brown tones, suggesting a complex underground structure. The overall atmosphere is one of intense, natural activity.
