Reading the Canon

Philipp Löffler, 2017-03-02 *Reading the Canon* explores the relation between the production of literary value and the problem of periodization tracing how literary tastes particular reader communities and sites of literary learning shape the organization of literature in historical perspective Rather than suggesting a political critique of the canon this book shows that the production of literary relevance and its tacit hierarchies of value are necessary consequences of how reading and writing are organized as social practices within different fields of literary activity *Reading the Canon* offers a comprehensive theoretical account of the conundrums still defining contemporary debates about literary value the book also features a series of historically inflected author studies from classics such as Shakespeare and Thomas Pynchon to less likely figures such as John Neal and Owen Johnson that illustrate how the idea of literary relevance has been appropriated throughout history and across a variety of national and transnational literary institutions

Sex Museums Jennifer Tyburczy, 2016-01-11 Museums have lengthy history going back to the Renaissance Cabinets of Curiosity and they are indices of changing fashions of perception insofar as the categories museum curators use to classify objects change over time The major focus of Tyburczy's study is sexuality on display which sets up in turn her investigation of the effects of museum display on the history of sexuality Historical context for the museum is one of her themes and how categories of normacy and perversity change over time with another themes being the work of sex museums in redefining

what sex means in the modern public sphere she also folds in consideration of the pleasures and dangers of exhibiting marginalized sexual subjects women nonwhite races LGBT individuals and the like last she explores the paradox of asserting as she does that all museums are sex museums bodies move around and toward objects on display they reshape the typical dances of museum goers along with their preconscious motivations in visiting a museum She proposes that explicit display or restagings of sexual artifacts provides new ways for approaching and understanding issues of desire sexual identity and sexual practices as they intersect with the history of the modern museum and with sexual history during the past two centuries Her fieldwork sites are the Leather Archives Museum in Chicago the Museum of Sex in New York the World Erotic Art Museum in Miami Beach and El Museo del Sexo in Mexico City Such institutions allow Tyburczy to show how alternative sexuality inclusive of kink fetish and sadomasochistic cultures and slavery dangerously crisscross on the surface of objects There are plenty of cases here in short to keep the casual reader titillated and the erudite reader surprised **Forkroads**
