TPM-Total Productive Maintenance Training

Total Productive Maintenance (TPM) Training Purpose

Want to turn your maintenance function from a simple react and repair function to a reliable system that prevents breakdowns?

Total Productive Maintenance (TPM) is the vehicle to do this!

What is Total Productive Maintenance?

It is a system that breaks up the complexity of equipment therefore allowing operators and maintenance staff to work together to select, correct, and maintain equipment so that breakdowns seldom occur during production.

TPM, Total Productive Maintenance focuses your energies to eliminate downtime and unexpected losses and get productivity back to world-class standards. TPM, Total Productive Maintenance training package will allow you to implement a robust system that focuses on systemizing your maintenance needs. Your employees will develop a customized Total Productive Maintenance system that produces a high Overall Equipment Effectiveness (OEE). This measures the time you need that equipment to meet daily customer demand. TPM, Total Productive Maintenance uses this effective analytical tool as a baseline to benchmark actual customer demand time, not the maximum scheduled production time. With our TPM, Total Productive Maintenance Training Package you can achieve an Overall Equipment Effectiveness (OEE) in the mid to upper 90% without major capital expenditures!
