

Chapter 4

PROBABILITY AND COUNTING RULES

PART II

Objectives

After completing this chapter, you should be able to:

1. Determine sample spaces and find the probability of an event, using classical probability or empirical probability.
2. Find the probability of compound events, using the addition rules.
3. Find the probability of compound events, using the multiplication rules.
4. Find the conditional probability of an event.
5. Find the total number of outcomes in a sequence of events, using the fundamental counting rule.
6. Find the number of ways that r objects can be selected from n objects, using the permutation rule.
7. Find the number of ways that r objects can be selected from n objects without regard to order, using the combination rule.
8. Find the probability of an event, using the counting rules.

4-2 The Addition Rules for Probability

Many problems involve finding the probability of two or more events. For example, what is the probability that a student will pass a course?
