Chapter 6 Social Fragmentation World Bank:

The World Bank's Lawyers Dimitri Van Den Meerssche, 2022-09-12 The World Bank's Lawyers provides an original socio legal account of the evolving institutional life of international law Informed by oral archives months of participant observation interviews legal memoranda and documents obtained through freedom of information requests it tells a previously untold story of the World Bank's legal department between 1983 and 2016 This is a story of people and the beliefs they have the influence they seek and the tools they employ It is an account of the practices they cling to and how these practices gain traction or how they fail to do so in an international bureaucracy Inspired by actor network theory relational sociologies of association and performativity theory this ethnographic exploration multiplies the matters of concern in our study of international law and lawyering the human and non human material and semantic visible and evasive actants that tie together the fragile fabric of legality In tracing these threads this book signals important changes in the conceptual repertoire and materiality of international legal practice as liberal ideals were gradually displaced by managerial modes of evaluation It reveals a world teeming with life a space where professional postures and prototypes aesthetic styles and technical routines are woven together in law's shifting mode of existence This history of international law as a contingent cultural technique enriches our understanding of the discipline's disenchantment and the displacement of its traditional tropes by unexpected and unruly actors It thereby inspires new ways of critical thinking about international law's political pathways promises and pathologies as its language is inscribed in ever evolving rationalities of rule *Practicing Ethnography in a Globalizing World* June C. Nash, 2007 In this book distinguished anthropologist June Nash demonstrates how ethnography can illuminate a wide array of global problems She describes encounters with an urban U S community undergoing de industrialization with Mandalay rice cultivators accommodating to post World War II independence through animistic practices with Mayans mobilizing for autonomy and with Andean peasants and miners confronting the International Monetary Fund Havin worked in a great variety of cultural settings around the world Nash challenges us to expand our anthropological horizons and to think about local problems in a global manner Global Productivity Alistair Dieppe, 2021-06-09 The COVID 19 pandemic struck the global economy after a decade that featured a broad based slowdown in productivity growth Global Productivity Trends Drivers and Policies presents the first comprehensive analysis of the evolution and drivers of productivity growth examines the effects of COVID 19 on productivity and discusses a wide range of policies needed to rekindle productivity growth The book also provides a far reaching data set of multiple measures of productivity for up to 164 advanced economies and emerging market and developing economies and it introduces a new sectoral database of productivity The World Bank has created an extraordinary book on productivity covering a large group of countries and using a wide variety of data sources There is an emphasis on emerging and developing economies whereas the prior literature has concentrated on developed economies The book seeks to understand growth patterns and quantify

the role of among other things the reallocation of factors technological change and the impact of natural disasters including the COVID 19 pandemic This book is must reading for specialists in emerging economies but also provides deep insights for anyone interested in economic growth and productivity Martin Neil Baily Senior Fellow The Brookings Institution Former Chair U S President s Council of Economic Advisers This is an important book at a critical time As the book notes global productivity growth had already been slowing prior to the COVID 19 pandemic and collapses with the pandemic If we want an effective recovery we have to understand what was driving these long run trends The book presents a novel global approach to examining the levels growth rates and drivers of productivity growth For anyone wanting to understand or influence productivity growth this is an essential read Nicholas Bloom William D Eberle Professor of Economics Stanford University The COVID 19 pandemic hit a global economy that was already struggling with an adverse pre existing condition slow productivity growth This extraordinarily valuable and timely book brings considerable new evidence that shows the broad based long standing nature of the slowdown It is comprehensive with an exceptional focus on emerging market and developing economies Importantly it shows how severe disasters of which COVID 19 is just the latest typically harm productivity There are no silver bullets but the book suggests sensible strategies to improve growth prospects John Fernald Schrodgers Chaired Professor of European Competitiveness and Reform and Professor of Economics INSEAD

The Autocrat's Predicament Timothy R. Heath,2023-11-03 In their quest for national revival China's leaders under Xi Jinping have sought to improve the economy's performance The disappointing economic record of authoritarian regimes provides ample grounds for doubt yet not all have failed Why have some succeeded where most did not The theory of the enabling condition highlights the central role that politics plays in the pursuit of economic advancement The theory explains that a political situation characterized by a strong central leadership weak elite opposition and a united public offers favorable prospects for enacting concentrated growth policies This arrangement enables the central leadership to enlist the public in convincing elites to implement policies that they might otherwise resist Focusing on the experience of single party authoritarian regimes *The Autocrat's Predicament: The Political Peril of Economic Upgrade in Single Party Authoritarian Regimes* examines episodes in the histories of the People's Republic of China Taiwan and the Soviet Union It concludes that China's unfavorable political situation could be potentially unfriendly for its ambitions to build an efficient highly productive economy *Land Fragmentation in Agriculture* Malcolm F.
