Foster,2011-12-01 Why Amy E Foster asks did it take two decades after the Soviet Union launched its first female cosmonaut for the United States to send its first female astronaut into space In answering this question Foster recounts the complicated history of integrating women into NASA s astronaut corps NASA selected its first six female astronauts in 1978 Foster examines the political technological and cultural challenges that the agency had to overcome to usher in this new era in spaceflight She shows how NASA had long developed progressive hiring policies but was limited in executing them by a national agenda to beat the Soviets to the moon budget constraints and cultural ideas about women s roles in America Lively writing and compelling stories including personal interviews with America s first women astronauts propel Foster s account Through extensive archival research Foster also examines NASA s directives about sexual discrimination the technological issues in integrating women into the corps and the popular media s discussion of women in space Foster puts together a truly original study of the experiences not only of early women astronauts but also of the managers and engineers who helped launch them into space In documenting these events Foster offers a broader understanding of the difficulties in sexually integrating any workplace even when the organization

approaches the situation with as positive an outlook and as strong a motivation as did NASA All Eyes are Upon Us Jason Sokol,2014-12-02 The Northeastern United States home to abolitionism and a refuge for blacks fleeing the Jim Crow South has had a long and celebrated history of racial equality and political liberalism After World War II the region appeared poised to continue this legacy electing black politicians and rallying behind black athletes and cultural leaders However as historian Jason Sokol reveals in All Eyes Are Upon Us these achievements obscured the harsh reality of a region riven by segregation and deep seated racism White fans from across Brooklyn Irish Jewish and Italian came out to support Jackie Robinson when he broke baseball s color barrier with the Dodgers in 1947 even as the city s blacks were shunted into segregated neighborhoods The African American politician Ed Brooke won a senate seat in Massachusetts in 1966 when the state was 97% white yet his political career was undone by the resistance to busing in Boston Across the Northeast over the last half century blacks have encountered housing and employment discrimination as well as racial violence But the gap between the northern ideal and the region s segregated reality left small but meaningful room for racial progress Forced to reckon with the disparity between their racial practices and their racial preaching blacks and whites forged interracial coalitions and demanded that the region live up to its promise of equal opportunity A revelatory account of the tumultuous modern history of race and politics in the Northeast All Eyes Are Upon Us presents the Northeast as a microcosm of America as a whole outwardly democratic inwardly conflicted but always striving to live up to its highest ideals The Advance ,1907
