Agency in Multilingual Education Policy and Planning in Asia Syed Abdul Manan, Anas Hajar, 2025-10-13 Manan and Hajar invite experts and seasoned researchers from Asian contexts to explore the nuanced dynamics of language policy and educational practices in Asia underscoring the importance of understanding local agency at a micro level The chapters engage in the critical exploration of the tensions between structure and agency and spotlight the institutional constraints these micro level actors face in the enactment of multilingual education policy and planning The contributors chapters provide case study examples of the response of local actors towards policies at the micro level when creating potential spaces for multilingual pedagogies and possible affirmation of multilingual identities It also provides an analysis of how and why micro level actors engage in exercise of their agency and what motives drive them towards such responses The volume serves as a challenge to and hopes to change the normative assumptions pervasive postcolonial hierarchies and hierarchical multilingualism in favour of more egalitarian and inclusive multilingual policies and practices both within and outside the classroom More specifically the volume shares significant developments occurring around the role of agency in negotiating the prevailing Anglophonic and Anglonormative trends and practices This book will be of value to researchers and postgraduate students working in the fields of language policy and planning multilingualism and language education

ISIS Masood Raja,2019-02-13 Relying on a thorough understanding of the role of ideology discourse and framing this volume discusses ISIS as an Islamist ideological organization and examines its philosophical scaffolding within the material conditions produced by neoliberal capital As Raja asserts it is this nexus of specifically retrieved Islamic history and the current global economic system that creates the kind of social identity ideally suited for ISIS The combination of the historical narratives and the contemporary means of communication enables ISIS to frame and spread its message recruit its adherents and replicate itself While many scholarly and journalistic works on ISIS provide a wealth of information not many elaborate on the terms that are often invoked in these writings For example scholars often use the term Salafi Jihadi but they do not provide a comprehensive explanation of such concept within the same text This book not only provides an explanation of the instructive terms used to explain the ISIS phenomenon but also asserts that only one school of thought in Islam The Sunni Wahabis is likely to be the ideal target for ISIS recruitment This claim of course does not rely on an essentialized pathology of Wahabi Sunnis but provides an explanation of the Wahabi Islam as a proverbial slippery slope as an absolutely necessary first step for an individual s transformation into an ISIS fighter Written in a clear and direct style this volume provides scholars and lay readers alike with a deeper understanding of ISIS and its strategies of recruitment and self sustenance
