The screenshot displays an AI-powered writing assistant interface. At the top, there is a search bar with the text "What is the difference between a home's appraised and market value?". Below the search bar, a list of response styles is shown, each with a corresponding emoji icon: Funny (😄), No filter (🚫), Shocking (😱), Cautious (🚫), Balanced (⚖️), Engaging (🗣️), Inspirational (💡), and Assertive (🗣️). The "Inspirational" style is highlighted in blue. Below the list, a preview of the generated text is shown, which includes the question and several paragraphs of text explaining the difference between appraised and market value.

What is the difference between a home's appraised and market value?

Market value is the price that the average buyer is willing to pay for a property and is a subjective number.

Appraised value refers to the objective value of a home assigned by a licensed appraiser.

These numbers should be similar, but if not, you can contest.

Appraised value is a measure of market for a second opinion.
