

Praise for IT'S EARNINGS THAT COUNT

"Well-written, intellectually sound, 'accessible' to those who take the time to understand, and a poke in the eye to those who abused our capitalistic system and those (pros) who let them get away with it."

—John C. Bogle, Founder and former CEO of The Vanguard Group

"Clear and engaging, Heiserman shows how to easily evaluate a growth company's investment potential for both conservative and aggressive investors. The result? The 'cautiously greedy' investor wins."

—Tom Jacobs, senior analyst for *The Motley Fool*

"In a single, easy-to-use index, Heiserman captures the essence of growth and value—a most insightful approach to stock picking."

—Charles W. Mulford, professor of accounting at the

Georgia Institute of Technology and coauthor of *The Financial Numbers Game*

"A great addition to the literature! Hewitt Heiserman has crafted an easy-to-read, basic tutorial on avoiding the most common mistakes caused by accounting phony baloney—combined with some age-old investment wisdom. Mandatory for the intermediate investor."

—Kenneth L. Fisher, CEO, Fisher Investments Inc., and
Forbes's "Portfolio Strategy" columnist

If recent history has taught us anything, it is that published financial reports can be questionable and even misleading to investors looking for solid investment targets. *It's Earnings That Count* shows you how to look beyond reported figures to find those companies that possess consistently high-quality earnings growth—the best indicator of a stock's long-term investment potential.
