The screenshot shows a writing assistant interface. At the top, there are several tone selection buttons: 'Funny', 'No filter', and 'Shocking'. Below these is a text input field containing the question: "What is the difference between a home's appraised and market value?". To the left of the text field are two icons: a red 'n' for 'Cathy' and a blue 'w' for 'Balanced'. Below the text field is a list of AI-generated text options, each with a tone icon: 'Engaging', 'Inspirational', 'Assertive', and 'Practical'. The 'Inspirational' option is highlighted with a blue border. The generated text for 'Inspirational' reads: "Market value is the price that the average buyer is willing to pay for a property and is a subjective number. Appraised value refers to the objective value of a home assigned by a licensed appraiser. These numbers should be similar, but if not, you can contest. Appraised value is based on market for a second opinion."
