Borgoni,2025-03-17 This is an open access book that addresses how we treat others and in particular infants and children with first person authority We respond to people s first person authority when we give our interlocutor s communication of their mental states more significance in establishing their thoughts desires and feelings than if another person were to report those mental states for them But what happens when our interlocutors are infants and children Increasingly practices of responsive childrearing ascribe first person authority to very young children Despite this tendency philosophy seems to be one step behind The accepted view is one in which first person authority has its locus in linguistic expressions of one s self knowledge This is an over intellectualized conception however that consequently tends to exclude children By combining philosophical resources with empirical findings about the onset of human communication play and our nature as social beings this text advances a non intellectualized anti individualist and non adult centered view of first person authority This is a view that both accommodates our daily experiences and provides material for advancing the philosophical debate around the phenomenon in an enriched and more inclusive way [Engage Literacy Teacher's Resource Levels 12-15 Extended Edition](#)
