Perkins, 1987 **The SAGE Handbook of Online Research Methods** Nigel G Fielding, Raymond M Lee, Grant Blank, 2016-09-30 Online research methods are popular, dynamic and fast changing. Following on from the great success of the first edition published in 2008, *The SAGE Handbook of Online Research Methods* Second Edition offers both updates of existing subject areas and new chapters covering more recent developments such as social media, big data, data visualization and CAQDAS. Bringing together the leading names in both qualitative and quantitative online research, this new edition is organised into nine sections: 1 Online Research Methods, 2 Designing Online Research, 3 Online Data Capture and Data Collection, 4 The Online Survey, 5 Digital Quantitative Analysis, 6 Digital Text Analysis, 7 Virtual Ethnography, 8 Online Secondary Analysis: Resources and Methods, 9 The Future of Online Social Research. *The SAGE Handbook of Online Research Methods* Second Edition is an essential resource for anyone interested in the contemporary practice of computer-mediated research and scholarship.

The State of UK Housing Kerry Revell, Philip Leather, 2000 Just under 1.5 million dwellings in the UK are officially classified as unfit for occupation, with a much larger number in a state of considerable disrepair. The first edition of *The State of UK Housing* provided the first single source of data on poor housing conditions that covers the whole of the UK, giving comprehensive information on measures to deal with these problems. This updated second edition draws together data from the national house condition surveys carried out between 1996 and 1998. *The State of UK Housing* examines the measurement of poor housing conditions, unfit dwellings, including lack of amenities and disrepair; contrasts between urban and rural areas within the UK and between European countries; poor housing conditions across the dwelling stock; the characteristics of households living in poor conditions; housing renewal policies over the past 40 years; the effectiveness of current policies to tackle poor housing conditions; public and private investment in housing renovation. The report is extensively illustrated with tables, graphs and maps which will be of considerable interest to policy makers and researchers alike. Supporting appendices provide full details of the data in the report and a wide range of information on individual authorities which will enable them to compare their problems and performance with others. *The State of UK Housing* is essential reading and an invaluable reference for all those involved in the implementation of renovation policies and those concerned with the growing problem of disrepair in the nation's housing stock.

Cash Machine Charges Great Britain. Parliament. House of Commons. Treasury Committee, 2005 About one third of ATMs now make direct charges to consumers and in 2004 it is estimated that UK consumers paid 140 million in charges made whilst accessing funds through cash machines. The Committee's report examines the principle and increasing trend towards charging the clarity of presentation of these charges to the consumer, the likely impact on financial exclusion and low income households and key areas for action from government regulators and the industry. Findings include that although there has been an increase in free machines as well as charging machines, their location and the lack of transparency about which machines make charges hinders genuine competition and consumer choice.

Recommendations include that there should be a clearer indication of the amount of surcharge on external signage with standardised labelling for all free and charging machines The LINK network agreement needs to improve consumer representation and its enforcement mechanisms The trend towards ATM charges should not be allowed to exacerbate existing financial exclusion and the Government should ensure that the switch to direct payment of benefits does not disadvantage recipients in their access to cash
