LITERATURE SURVEY

Mohamed Rawidean et al[1] show the WSN as the best way to solve the agricultural problems related to farming resources optimization, decision making support, and land monitoring. This approach provides real-time information about the lands and crops that will help farmers make right decisions. agriculture systems based on the internet of things (IOT) technology is explained in detail. Author has concentrated on greenhouse. In this paper, a practical, low-cost and environmental friendly Intelligent Greenhouse Monitoring System (IGMS) is designed based on WSN technology. The main objective of this paper is to compare the efficiency of irrigation using two methodologies, Schedule and automated.

Chidambarnathan C.M et al[2] In this paper, Author have discussed the process to legitimately fine tune IEEE 802.15.4 details and the examining recurrence of conveyed sensor hubs. also introduced the challenges and issues in IEEE 802.15.4 mac protocol. Author have included limitations of wireless sensor network in agriculture like, Data security, Data maintenance, Size of the data and processing techniques, Handling Interruptions in data transfers.

G.Sahitya et al[3] In this paper, Author have discussed about zigbee. It is an IEEE based standard for wireless communication. The difference between the ZigBee and 802.15.4, 802.15.4 has only Mac and physical layer but layer above that is present in the ZigBee which makes the communication very effective. Author shows the design implementation of ZigBee.

Author has conducted two different set of tests were conducted are Test conducted in closed room and Test conducted with an open environment.

A reliable wireless sensor network is implemented. The output of the total setup designed can be observed in the computer to which the co-ordinator (receiver X Bee module) is connected.

Optimal Firm Behaviour in the Context of Technological Progress

and a Business Cycle Onno van Hilten,2013-03-14 This thesis is a theoretical study of the optimal dynamic policies of a to some extent slowly adjusting firm that faces an exogeneously given technological progress and an exogeneously given business cycle It belongs to the area of mathematical economics It is intended to appeal to mathematical economists in the first place economists in the second place and mathematicians in the third place It entails an attempt to stretch the limits of the application of deterministic dynamic optimisation to economics in particular to firm behaviour A well known Dutch economist and trained mathematician recently stated in 1 a local university newspaper that mathematical economists give economics a bad reputation since they formulate their problems from a mathematical point of view and they are only interested in technical mathematical problems At the same time however profound as economists may be when it comes to extending or modifying the existing theory to make it applicable to a certain economic problem an understanding of optimal control theory which is the mathematical theory used in this thesis ovh based solely on heuristic arguments will often turn out to be inadequate SydS Study and Analysis of Knowledgebase of Molecular Systems and to Develop Model for Prediction of Molecular Structure Binod Kumar,2019-12-16 Doctoral Thesis Dissertation from the year 2010 in the subject Computer Science Miscellaneous Saurashtra University Computer Science Dept course PhD language English abstract This research work aims to analyze experimental data about biochemical properties and their corresponding kinetics In this research the attempt has been made to analyze protein and DNA structure using tools such as DAMBE and Jemboss Some Molecular Visualization or Analysis tools are already developed that reads analyses and crosscorrelates experimental information which is useful for chemist Organist Chemist Biochemist and Druggist In this research using ACD ChemSketch compounds are stored in databases and SMILE code Simplified Molecular Input Line Specification is generated A SMILE defines the molecules in the form of alphanumeric chains In this research work chemical shift of every carbon atom of the molecule have been displayed by using NMR Prediction Under this research CML codes of molecules have been developed and that codes have been used for molecular information like symmetry and atom and bond attributes Here multiple observations of the same molecule like conformational analysis and NMR prediction have been performed Using Pubchem NCBI additional miscellaneous information such as bioactivity analysis by structure activity similarity and revised compound selection after addition of similar compounds have been analyzed Under the research work geometric optimization of molecules chemical structure visualization and calculation of electronic absorption spectra of chemical structure have been performed using ArgusLab tool In this research Single Entry Point Calculation Molecular Orbital calculation on grids for plotting HOMO and LUMO and ESP Mapped Density calculations have been also performed Under the research work of different types of analysis like prediction of protein secondary structure isoelectric point calculation etc have been performed on nucleotide and protein sequence using DAMBE and Jemboss tools The objective of this research work is to assist the organic and biochemist in each step of the synthesis planning process for prediction of molecular structure This research

work provides a series of methods and tools for chemical or biochemical applications Built in catalogs of fine chemicals or biochemical provide suitable starting materials for a synthesis or molecular structure prediction target Using similarity searches or substructure searches the connection between the target compound and available starting materials has been achieved Memoirs of the Geological Survey of India Geological Survey of India,1909 Scientific Survey of Porto Rico and the Virgin Islands New York Academy of Sciences,1930 Includes bibliographies **Control Strategies of Permanent Magnet Synchronous Motor Drive for Electric Vehicles** Chiranjit Sain,Atanu Banerjee,Pabitra Kumar Biswas,2022-10-25 To reduce the emissions of greenhouse gasses and maintain environmental sustainability electric vehicles play a vital role in a modern energy efficient environment Permanent magnet synchronous motors PMSMs are widely employed in electric vehicle technology due to their high dynamic response better torque speed characteristics noiseless operation high power density high efficiency and power factor as compared to other conventional motor drives This book demonstrates the development of various control strategies and illustrates the dynamic performance intensification of a PMSM drive To ensure the faster dynamic behaviour and flexibility in control under various operating conditions the performance of a PMSM drive has been explained Finally control strategies have been executed through mathematical modelling and illustration of several case studies for optimal operation Features Introduces performance indicators in a self controlled PMSM machine to justify the dynamic behaviour Discusses comparative performance study and optimization of the drive performance Provides a detailed comparative performance analysis between classical and fuzzy logic controllers in a PMSM drive Includes illustrations and case studies using mathematical modelling and real time test results Discusses the state of the art in solar powered energy efficient PMSM drives with various issues This book is aimed at researchers graduate students and libraries in electrical engineering with specialization in electric vehicles *Information Coding Using Fuzzy Set Theory* Manu Banga,2022-10-07 Document in the subject Mathematics General Basics language English abstract Chapter 1 In this chapter a brief literature survey on measures of entropy and divergence measures is presented It also outlines the basic concepts of fuzzy sets A brief review on fuzzy information measures and fuzzy directed divergence are given here The concept of multiple criteria decision making problem is also presented In addition a general overview of coding theory is given and summarizes the objectives with an overview of the work reported in later chapters Chapter 2 In Chapter 2 after reviewing some literature on measures of information for fuzzy sets a new generalized fuzzy information measure involving two parameters of order and type has been introduced The necessary properties of the proposed measure have been verified Further the monotonic nature of generalized fuzzy information measure with respect to the parameters is studied and the validity of the same is verified by constructing the computed tables and plots on taking different values of the parameters Chapter 3 Divergence is an important measure in information theory as well as in fuzzy set theory which has widely used by researchers in many application areas Generalized divergence measures provide flexibility to the users and enhance their applicability range This

chapter proposes a new generalized fuzzy divergence measure It may be remarked that the strength of a measure lies in its properties The new measure has important properties proved in this chapter to enhance the employability of this measure Special cases are also discussed for providing particular results Chapter 3 deals with the introduction of a new generalized measure of fuzzy directed divergence involving two real parameters The proposed measure satisfies all the necessary properties of being a measure Some additional properties of the proposed measure have also been studied Further the monotonic nature of generalized fuzzy directed divergence measure with respect to the parameters is studied and validity of the same is checked by constructing the computed tables and plots on taking different fuzzy sets and different values of the parameters Corresponding measures of total ambiguity and fuzzy information improvement have also been defined and studied
