Advanced Index Fund Investing Step Plan For Workers 16702

Richard Eli Evans

Advanced Index Fund Investing Step Plan For Workers 16702:

Earn More (sleep Better) Richard Eli Evans,1999 This is likely to be the most important book you will ever read about investing It recommends a very simple step by step strategy to do what sophisticated professionals do use index funds as the vehicle of choice for their investment assets Why Index Funds For the fifteen year period ending December 31 1997 an S P 500 index fund beat 90 percent of all diversified stock funds before counting sales charges and the tax advantage of index funds In fact index funds have outperformed non index funds across a wide range of asset classes and time periods What about individual stocks and bonds Based on the evidence investing with individual stocks bonds or conventional mutual funds is not likely to give you the best results It makes more sense to invest with a diversified portfolio of index funds balanced to fit your needs and goals How do Index Funds perform in bear markets Index funds in six recent bear markets held up better than conventional non index funds

Index Funds Mark T. Hebner,2007 The financial services industry has a dark secret one that costs global investors about 2.5 trillion per year This secret quietly drains the investment portfolios and retirement accounts of almost every investor In 1900 French mathematician Louis Bachelier unsuspectingly revealed this disturbing fact to the world Since then hundreds of academic studies have supported Bachelier's findings This book offers overwhelming proof of this and shows investors how to obtain their optimal rate of return by matching their risk capacity to an appropriate risk exposure A globally diversified portfolio of index funds is the optimal way to accomplish this Index Funds is the treatment of choice for wayward investors Below market returns in investment portfolios and pension accounts are the result of investors gambling with their hard earned money This 12 Step Program will put active investors on the road to recovery Each step is designed to bring investors closer to embracing a prudent and sound strategy of buying holding and rebalancing an index portfolio
